Word Bank (key vocabulary): Homestead Act · Transcontinental Railroad · Westward Expansion · Manifest Destiny · Land Grant · Reservation

Complex text, student choice (organizer format), primary sources, and student-to-student discussion are built in — satisfying the TEAM Activities & Materials indicators.

5 · Questioning Plan (DOK ladder, text-based, cite evidence)

Level	Example question (US.01)
DOK 1	Define the key term “Homestead Act” and identify when it occurred.
DOK 2	In your own words, summarize the Homestead Act and Transcontinental Railroad and explain why it mattered.
DOK 3	Analyze the relationship between the Homestead Act and the decline of American Indian territories. What was the primary cause-and-effect relationship?
DOK 4	Evaluate the long-term impact of the Homestead Act and Transcontinental Railroad — support your claim with evidence from the source(s).

Anchored to the US.01 content and item bank (DOK 1–4). Majority of questions are text-based; students cite evidence. Teacher may swap in additional bank items.

6 · Thinking & Problem-Solving

- **Analytical thinking:** compare and contrast perspectives within the Homestead Act and Transcontinental Railroad.
- **Research-based thinking:** evaluate “Homestead Act” and related sources.
- **Problem-solving (drawing conclusions / justifying):** students build and defend a claim in the CER.

7 · Grouping & Feedback [teacher selects]

- **Grouping:** pairs for the CER organizer; whole-class for the primary-source model; individual exit ticket.
- **Feedback checkpoints:** circulate during Guided Practice and Primary-Source segments; use exit-ticket results to adjust tomorrow's opening.

8 · Differentiation (Knowledge of Students)

- **ELL / WIDA:** UDL/WIDA overlay + sentence frames; Spanish exit ticket for entering/emerging levels.
- **IEP / 504:** chunked Cornell Notes (with the support back), extended time, read-aloud (browser TTS), reduced-item formative option.

9 · Environment Reminders (teacher-implemented)

A lesson plan supports — but cannot manufacture — the TEAM Environment domain. Reminders:

- Set high expectations; frame content with dignity and historical accuracy.
- Establish discussion norms before the primary-source analysis.
- Display current student work; keep materials accessible for the pair activity.

10 · Materials & Where to Print

Included in today's print ZIP (US.01 — print-ready PDF + editable DOCX):

Student (print & copy)	Teacher (your copy)
Cornell Notes (Universal Front)	Teacher Lesson Plan (this doc)
Comparison / analysis organizer	Cornell Support Backs — toolkit (copy as needed, MTSS)
CER organizer	Formative Assessment — Answer Key
HIPP organizer	Primary-Source Teacher Guide
Primary-Source Packet	UDL / WIDA overlay

Student (print & copy)	Teacher (your copy)
Formative Assessment	File Map & Print Guide
Exit Ticket — English & Spanish	

Note: students print the Cornell Notes Universal Front. The Cornell Support Backs (Guided/Light scaffolds) live in the Teacher Organizer Toolkit and print duplex on the reverse — copy them only for students who need them (MTSS), and fade as evidence grows.

Slides (download once for the unit):

Unit 1 Teacher Deck — US.01 slides. Download from Teacher Tools → Lecture Decks → Unit 1. (Decks are reused all unit, so they are not bundled in the daily ZIP.)

11 · Reflection & Next Steps

Teacher reflection (complete after teaching):

- Did students meet the I-CAN? Cite the evidence — exit-ticket % correct, CER quality.
- What worked, and what would I change next time?
- Which sub-objective still needs another touch tomorrow?

Extension / enrichment (for students who mastered it):

- Deeper source work: analyze a second primary source with the HIPP organizer.
- Connect forward: how does the Homestead Act and Transcontinental Railroad set up US.02 (Federal Policies Toward American Indians)?

If it's not working (reteach / intervention path):

- Below ~70% mastery on the exit ticket / formative → reteach with entry-tier materials (Cornell Notes + the Cornell Support Back + a shorter source) in a small group — MTSS Tier 2.
- **One click — “Remediate US.01”:** assembles a reteach pack (entry-tier worksheet, targeted DOK 1–2 questions, ELL/IEP supports) as a fresh print ZIP.
- **Mid-lesson trouble:** if pacing slips, protect the 5-min Exit Ticket — it's tomorrow's data — and move the CER to homework or the next day.

- **Problem-solving (drawing conclusions / justifying):** students build and defend a claim in the CER.

7 · Grouping & Feedback [teacher selects]

- **Grouping:** pairs for the CER organizer; whole-class for the primary-source model; individual exit ticket.
- **Feedback checkpoints:** circulate during Guided Practice and Primary-Source segments; use exit-ticket results to adjust tomorrow's opening.

8 · Differentiation (Knowledge of Students)

- **IEP / 504:** chunked Cornell Notes (with the support back), extended time, read-aloud (browser TTS), reduced-item formative option.

9 · Environment Reminders (teacher-implemented)

A lesson plan supports — but cannot manufacture — the TEAM Environment domain. Reminders:

- Set high expectations; frame content with dignity and historical accuracy.
- Establish discussion norms before the primary-source analysis.
- Display current student work; keep materials accessible for the pair activity.

10 · Materials & Where to Print

Included in today's print ZIP (US.04 — print-ready PDF + editable DOCX):

Student (print & copy)	Teacher (your copy)
Cornell Notes (Universal Front)	Teacher Lesson Plan (this doc)
Comparison / analysis organizer	Cornell Support Backs — toolkit (copy as needed, MTSS)

Student (print & copy)	Teacher (your copy)
CER organizer	Formative Assessment — Answer Key
HIPP organizer	Primary-Source Teacher Guide
Primary-Source Packet	UDL / WIDA overlay
Formative Assessment	File Map & Print Guide
Exit Ticket — English & Spanish	

Note: students print the Cornell Notes Universal Front. The Cornell Support Backs (Guided/Light scaffolds) live in the Teacher Organizer Toolkit and print duplex on the reverse — copy them only for students who need them (MTSS), and fade as evidence grows.

Slides (download once for the unit):

Unit 1 Teacher Deck — US.04 slides. Download from Teacher Tools → Lecture Decks → Unit 1. (Decks are reused all unit, so they are not bundled in the daily ZIP.)

11 · Reflection & Next Steps

Teacher reflection (complete after teaching):

- Did students meet the I-CAN? Cite the evidence — exit-ticket % correct, CER quality.
- What worked, and what would I change next time?
- Which sub-objective still needs another touch tomorrow?

Extension / enrichment (for students who mastered it):

- Deeper source work: analyze a second primary source with the HIPP organizer.
- Connect forward: how does the Gilded Age Politics and Economics set up US.05 (Inventions & Innovations of Business Leaders & Entrepreneurs)?

If it's not working (reteach / intervention path):

- Below ~70% mastery on the exit ticket / formative → reteach with entry-tier materials (Cornell Notes + the Cornell Support Back + a shorter source) in a small group — MTSS Tier 2.
- **One click — “Remediate US.04”:** assembles a reteach pack (entry-tier worksheet, targeted DOK 1–2 questions, ELL/IEP supports) as a fresh print ZIP.
- **Mid-lesson trouble:** if pacing slips, protect the 5-min Exit Ticket — it's tomorrow's data — and move the CER to homework or the next day.
