

Which Organizer, When?

Unit 4 · The Roaring Twenties (1920–1929) · US.28–US.38

Match the task to the tool — then
teach the *why*.

Students don't need more worksheets — they need the **right thinking tool** for the task in front of them. Find the *verb* in the assignment, then reach for the organizer built for that kind of thinking.

45-minute class? Plan **one** deep organizer (~20 min) or **two** quick ones (~10 min each), plus warm-up & discussion. Every page prints its own time estimate.

WHEN THE TASK ASKS STUDENTS TO...	REACH FOR	≈ TIME	BECAUSE IT WORKS
Compare two things	● Venn diagram · T-chart	10–15 MIN	The overlap makes shared traits visible and sharpens the differences. <i>Marzano's #1 strategy.</i>
Compare three or more on set criteria	● Comparison matrix	15–20 MIN	Holds many cases against the same yardstick so patterns pop.
Trace causes & effects	● Cause & Effect	15–20 MIN	Makes the chain of “why it happened” visible. <i>Builds SSP.05.</i>
Put events in order / show change over time	● Timeline	15–20 MIN	Sequence exposes cause across time. <i>Builds SSP.05 chronology.</i>
Brainstorm & connect ideas	● Concept web	10–15 MIN	Surfaces prior knowledge and shows how ideas link to one hub.
Summarize — find the main point	● Main Idea & Details	10–15 MIN	Separates the big idea from the details that support it.
Activate prior knowledge & track learning	● K-W-L chart	10–15 MIN	Sets a purpose and makes thinking metacognitive. <i>UDL self-regulation.</i>
Learn a key term	● Frayer model	10–15 MIN	Builds deep word knowledge — not a definition students forget by Friday.
Analyze a source	● HIPPO (or OPTIC)	15–20 MIN	Gives students a historian's routine for interrogating a document.
Make an evidence-based claim	● C-E-R	20–25 MIN	Turns an opinion into a defensible argument: claim, evidence, reasoning.
Weigh two sides or options	● T-chart · Problem-Solution	15–20 MIN	Forces a decision that rests on evidence from both sides.
Get the basics of an event	● 5 Ws	5–10 MIN	Fast, complete factual capture — who, what, when, where, why.
Connect the nation to Tennessee	★ Tennessee Connection	10–15 MIN	Local ties make national history stick — and it's what sets History Hack apart. Our signature move.

Why the Great Migration Reshaped America

WHEN • WHY Laying it out as **push/pull** → **movement** → **impact** makes visible how millions of decisions to leave the South reshaped both the region people left and the cities they built. *Analyzing cause & effect is TN Social Studies Practice SSP.05.*

Forces that pushed people out of the South and pulled them North sit on the left; four impacts flow out on the right. Arrows show the chain: causes → movement → effects.

CAUSES • PUSH & PULL FACTORS

Push • Jim Crow segregation, disenfranchisement & racial violence

Push • sharecropping poverty & the boll weevil's damage to cotton

Pull • WWI factory jobs at higher wages — ~\$1,000/yr North vs. ~\$300 South

THE MOVEMENT

THE GREAT MIGRATION, 1916–1970

~6 million African Americans move from the rural South to Northern & Midwestern cities — describe it in your words

IMPACTS • ON NORTH & SOUTH

Chicago, Detroit & New York grow; new Black neighborhoods & businesses form

DOK 2 • Summarize

WHEN • WHY A main-idea organizer separates the **big idea** from the developments that support it, so students summarize instead of listing facts. *Summarizing — keep the main idea, cut the rest — is a high-yield comprehension strategy (Marzano).*

Fill each detail box first, using the faint hints as anchors. Then infer the main idea all four developments support and write it up top — the arrows show every detail holding it up. Finish with one summary sentence.

MAIN IDEA

New technologies — air travel and electricity — reshaped how Americans traveled, worked, and lived in the 1920s.

↑ THESE FOUR DEVELOPMENTS SUPPORT THE MAIN IDEA ↑

Aviation Takes Off

Wright Brothers, 1903; WWI advanced aircraft; airmail, 1918; Lindbergh's solo transatlantic flight, 1927.

Air Travel's Impact

Cross-country trips: days → hours. Passenger-miles: 6,000 (1926) → 173,000 (1929); new airports.

Electricity Spreads

By 1930, 85% of urban homes had power; generation 6B kWh (1902) → 117B (1929).

Electricity Changes Life

Streetlights, trolleys, elevators (skyscrapers); appliances — vacuum, washer, iron, refrigerator.

In one sentence, how did new technology change everyday American life?

★ **Tennessee Connection** — Not everyone shared these gains at once. The **rural-urban electrification gap** left much of rural Tennessee without power until New Deal programs like the **Tennessee Valley Authority (TVA)** brought electricity to underserved areas in the 1930s.

How did the Harlem Renaissance change American culture — and challenge stereotypes?

it put Black artists & writers at the center of American culture · jazz reached mainstream audiences · its influence lasted long past the 1920s

★ **Tennessee Connection.** Though centered in New York, the movement had deep Tennessee roots: **Fisk University** in Nashville was a major center of African American intellectual life — its **Jubilee Singers** had pioneered spirituals, and writer **Arna Bontemps** (a Fisk graduate) kept ties to Nashville’s Black community.

WHEN · WHY The Scopes Trial staged a clash between fundamentalism and modernism. A T-chart lays both sides on the same lenses so students see the real disagreement — then judge the legacy. *Constructing and communicating an argument from evidence is a TN Social Studies Practice (SSP.04).*

John T. Scopes, a 24-year-old Dayton teacher, was tried in 1925 for teaching evolution. Weigh the two sides on the same three lenses, then read the outcome and take your own view.

	PROSECUTION Fundamentalism · against teaching evolution	DEFENSE Modernism · for teaching evolution
Who led it the figures	<i>William Jennings Bryan — 3-time candidate, fundamentalist</i>	<i>Clarence Darrow — famed defense lawyer, skeptic</i>
Core argument the claim	<i>the Bible is literal truth; parents & taxpayers control the curriculum</i>	<i>evolution is backed by science; teachers' freedom; church–state separation</i>
What's at stake the bigger fight	<i>traditional religious values seen as needed for social order</i>	<i>modern science education; many Christians accept evolution too</i>

The outcome. Scopes was convicted and fined **\$100** (later overturned on a technicality). Darrow's cross-examination of Bryan drew national attention, and H.L. Mencken dubbed it the “Monkey Trial.” Tennessee’s **Butler Act** stayed on the books until **1967**.

Your view — What larger conflict did this trial reveal? _____ What did it settle — and what did it leave open? _____

★ **Tennessee Connection.** The Scopes Trial took place in **Dayton, Tennessee, in July 1925**. It happened here — a Tennessee teacher, a Tennessee law (the Butler Act), and a Tennessee courtroom that drew the whole nation’s attention.

Prohibition: Intended Goals vs. Actual Results

Name _____ Class _____ Date _____

WHEN • WHY Placing the **goals** beside the **results** makes the gap visible — a law meant to reduce crime helped create an era of organized crime. *Analyzing cause & effect — including unintended effects — is TN Social Studies Practice SSP.05.*

Why Prohibition passed — and its intended goals — sit on the left. What actually happened flows out on the right. Compare the two: where did outcome match intent, and where did it not?

CAUSES • GOALS & THE LAW

Temperance movement, religious groups & progressive reformers

Intended goals: less crime, better health, stronger families, more productivity

The 18th Amendment (1919) & the Volstead Act

THE POLICY

PROHIBITION, 1920–1933

A national ban on making, selling & transporting alcohol — describe what it tried to do

WHAT ACTUALLY HAPPENED

Only 1,500 federal agents; ~5% of illegal alcohol intercepted

Organized crime boomed — Al Capone; St. Valentine's Day Massacre (1929)

Bootlegging & “bathtub gin”; smuggling from Canada & the Caribbean

Speakeasies spread; widespread disregard for the law

★ **Tennessee Connection.** Tennessee went **dry in 1909** — a full decade before the 18th Amendment. During national Prohibition, the state's mountainous terrain became a haven for **moonshiners**, and **Memphis**, with its river access, was a hub for illegal alcohol.

The 1920s Boom — and Its Hidden Risks

Name _____ Class _____ Date _____

WHEN • WHY A web shows credit, consumerism, advertising, and speculation as one system driving the boom — and how the same forces built a hidden risk. *Connecting causes into one picture and reasoning about consequences builds SSP.05.*

The hub is the boom. On each bubble, write how that force drove 1920s prosperity — the faint notes are starters. Then fill the red box: what warning signs hid beneath the boom?

⚠ Warning signs beneath the prosperity

overproduction • income inequality limiting buying power • a small price drop could trigger forced selling (margin calls) — an unsustainable bubble

Looking ahead → credit, consumerism, and speculation fed each other into a bubble. In **Unit 5**, you'll see what happened when it burst — the Great Depression.
