

Unit 4 — Teacher How-to-Use & MTSS Guide

The 1920s (1920–1929) • Course Standard • US.28–US.38 • Grades 9–12

Release-Ready • Pilot Edition. This guide holds the answer key for teacher use only — keep it separate from student materials.

1. Firm Goals, Flexible Means

One firm learning goal per standard; flexible, universal means. Supports are available by design and never lower the goal. They work alongside — never in place of — required IEP or 504 accommodations.

The same six labels students see

Label	Meaning
CORE PATH	Essential instruction every student completes.
SUPPORT OPTION	Optional scaffold that keeps the goal, not lowers it.
LANGUAGE SUPPORT	Vocabulary, pronunciation, and Spanish cognates.
RESPONSE CHOICE	Write, say/record, or diagram.
PROGRESS CHECK	Quick DOK-2/3 check to guide reteach or extend.
EXTENSION	Deeper challenge once the goal is met.

2. Label-to-Action Table

When you see...	Do this
CORE PATH	Teach to all; this is the standard expectation.
SUPPORT OPTION / Guided Back	Offer to any student; never assign by track.
LANGUAGE SUPPORT	Pre-teach Word Bank terms; use Spanish column for access.
PROGRESS CHECK	Collect a quick response; route with the Decision Cycle.
EXTENSION	Offer the higher-DOK CER/Extension Bank to anyone ready.

3. MTSS — Tiers of Support Intensity

Tier	Who / when	In this unit
Tier 1 (Core)	All students	Full deck + workbook CORE PATH, Word Bank, Cornell Notes.
Tier 2 (Targeted)	Students missing a Progress Check	Guided Support Back, sentence frames, Rehearsal Lab.
Tier 3 (Intensive)	Persistent barrier	Pair Guided Back with IEP/504 supports; reteach a step.

4. The MTSS Decision Cycle

PROGRESS CHECK → identify barrier → select support → reteach → recheck → extend

Scaffold fading

Fade Guided → Light → independent as evidence grows; reintroduce support for a new barrier. Required IEP/504 accommodations do not fade unless the authorized team changes them.

5. District Review Evidence Snapshot

Criterion	Where it shows
Standards alignment (US.28–38)	Standards & SSP Crosswalk; per-standard blocks.
Public-domain sources, cited	Source Library; Activity 5 each standard.
UDL 3.0 visible	Accessibility matrix; callouts throughout.
MTSS	This guide §3–4; wrap-up decision band in the Teacher Deck.
Assessment integrity	Answer key here (separate); de-biased positions.

6. Direct Teaching + Cornell Notes + Slide Deck Workflow

Project the Student (Lean) Deck; students take Cornell Notes on the Universal Front. The Teacher (Full) Deck carries Quick Reviews, Guided Practice, Checks for Understanding, and Answer Reveals.

7. What to Print and When

Print	When
Cornell Universal Front (per standard)	Day 1 of each standard.
Guided / Light Support Backs	On request only; reverse of the front.
Practice Quiz + CER	After direct teaching, before the standard assessment.
Source Library	Once per unit for reference.

8. Per-Standard Lesson Sequence & Pacing (one standard = one 45-minute period)

Each standard is taught in a single 45-minute period, but the workbook intentionally holds more activity than one period can fit — run them all and it is roughly 90–105 minutes. That is by design: you choose which activities fill your period, and the rest become bell-ringers, stations, homework, reteach, or extension. The estimates below are honest time-on-task for an average class; adjust for yours. Every workbook activity header shows the same 🕒 estimate so students can self-pace.

Honest activity time estimates (pick what fills your 45 minutes)

Activity	~Time	Note
Standard launch (hook · goal · activate · predict)	5 min	Frames the learning target and the day.
Activity 1 — Vocabulary Word Bank	10 min	Reference + self-check + quick-write.
Activity 2 — Vocabulary Studio (Frayer)	7 min	One priority term, four quadrants.
Activity 3 — Cornell Notes (with slide deck)	20 min	Direct-teaching capture — front + processing back.
Activity 4 — Close Read	15 min	Passage, annotation, text-dependent questions.
Geographer's Lens (G-tagged standards, as applicable)	10 min	Analyze the period map + mark-up.
Activity 5 — Primary Source / Data (HIPPO)	15 min	Source + five HIPPO prompts + response.
Activity 6 — Practice Quiz	8 min	A few items + one short DOK-3 write.
Activity 7 — CER + Exit Ticket	15 min	CER organizer + paragraph (~12) and Exit Ticket (~3).

Run every activity and a standard totals ≈ 105 minutes (≈ 95 without a map) — about two periods of work compressed into a one-period design. So it is a menu, not a checklist.

How to fill the period — your call

You decide which activities run in class. A common choice is Launch → Cornell Notes with the deck → one analysis activity (Close Read or Primary Source) → the Exit Ticket, but nothing forces that set — pick what your class needs that day.

The Exit Ticket is the daily formative check; try to close every period with it (see §16 for the keys and reteach routing).

Whatever you do not run in class becomes a bell-ringer, station, early-finisher task, homework, reteach, or extension. Rigor stays the same for every learner; UDL/MTSS supports layer on without lowering the bar.

9. Assessment Source & Item Metadata

Each standard's Progress Check / Transfer Check is a Teacher-Deck Check for Understanding (DOK 2–3). The additional Practice-Quiz DOK-1 items are History Hack-authored recall items. All items are pre-field-test (classroom-formative), not a secure TCAP form. Correct-answer positions are de-biased and identical across Student Progress Check, Teacher CFU/Reveal, and the workbook Transfer Check.

De-biased key distribution (Transfer Checks, US.28–US.38)

A • B • C • D • A • B • C • D • A • B • C

10. Practice Quiz — Answer Key & Rationales

For teacher use only — keep separate from student copies.

US.28 — The Great Migration

Item	DOK	Key	Rationale
us30-q2	2	A	Recall of the standard's core term/fact.
u1-us28-dok3-tc	3	A	The migration transformed both regions: Southern rural areas lost working-age population and economic capacity, while Northern cities experienced rapid growth, African American neighborhood and business development, cultural renaissance, but also increased racial tensions.

US.29 — Radio, Movies, and Popular Culture

Item	DOK	Key	Rationale
us31-q2	2	A	Recall of the standard's core term/fact.
u1-us29-dok3-tc	3	B	Mass media created modern consumer culture by reaching national audiences with advertising, using celebrities to promote products and lifestyles, and creating shared cultural experiences that generated demand for standardized consumer goods.

US.30 — Grand Ole Opry, Blues & Country Music

Item	DOK	Key	Rationale
us32-q2	2	A	Recall of the standard's core term/fact.
u1-us30-dok3-tc	3	C	Country music preserved and celebrated rural Southern values while blues expressed African American experiences and resilience. Both gave voice to marginalized communities, maintained regional cultural identity, and profoundly influenced all subsequent American popular music.

US.31 — New Technologies: Air Travel and Electricity

Item	DOK	Key	Rationale
us33-q2	2	A	Recall of the standard's core term/fact.
u1-us31-dok3-tc	3	D	Technological benefits were unevenly distributed: urban middle-class families gained most from electricity and consumer goods, while rural Americans largely lacked access

Item	DOK	Key	Rationale
			to electrification. Some workers faced displacement as machines replaced manual labor.

US.32 — Henry Ford, the Automobile & Mass Production

Item	DOK	Key	Rationale
us34-q2	2	A	Recall of the standard's core term/fact.
u1-us32-dok3-tc	3	A	Ford's legacy is complex: he made cars affordable, raised wages, and drove economic growth, but his assembly line created monotonous work, he fiercely opposed unions, and the automobile-centered society he helped create brought traffic, pollution, and fossil fuel dependence.

US.33 — The Harlem Renaissance

Item	DOK	Key	Rationale
us35-q2	2	A	Recall of the standard's core term/fact.
u1-us33-dok3-tc	3	B	The Harlem Renaissance proved African American artistic and intellectual excellence, challenged racist assumptions through cultural achievement, made jazz central to American identity, provided foundation for civil rights activism, and continues to influence artists across genres.

US.34 — Women in the 1920s: Flappers & Social Changes

Item	DOK	Key	Rationale
us36-q2	2	A	Recall of the standard's core term/fact.
u1-us34-dok3-tc	3	C	The 1920s brought real gains—voting rights, more educational and work opportunities—but fundamental inequality persisted. Pay gaps, career limitations, and social expectations meant that while women's options expanded, systemic barriers to equality remained largely intact.

US.35 — Civil Liberties: Red Scare, KKK & NAACP

Item	DOK	Key	Rationale
us37-q2	2	A	Recall of the standard's core term/fact.
u1-us35-dok3-tc	3	D	These leaders represented different strategies: Wells exposed racial violence through journalism, Garvey promoted Black nationalism and economic independence through separation, and the NAACP pursued integration through courts and legislation—demonstrating the diversity of approaches to civil rights.

US.36 — The Scopes Trial

Item	DOK	Key	Rationale
us38-q3	2	A	Recall of the standard's core term/fact.
u1-us36-dok3-tc	3	A	Bryan and Darrow embodied the era's cultural divide: Bryan

Item	DOK	Key	Rationale
			championed rural, religious, traditional values under threat, while Darrow represented urban, secular, modernist thinking. Their confrontation symbolized deep conflicts between old and new America.

US.37 — Prohibition & Its Impact on American Society

Item	DOK	Key	Rationale
us37a-q2	2	A	Recall of the standard's core term/fact.
u1-us37-dok3-tc	3	B	Prohibition's costs far exceeded benefits: it created powerful organized crime syndicates, killed thousands through poisonous alcohol, corrupted law enforcement, and undermined respect for law—all while failing to significantly reduce drinking. It demonstrated the limits of legislating morality.

US.38 — Credit, Consumerism & Financial Speculation

Item	DOK	Key	Rationale
us38a-q2	2	A	Recall of the standard's core term/fact.
u1-us38-dok3-tc	3	C	Credit, consumerism, and speculation formed an interconnected cycle: credit enabled purchases and investments, driving production and stock prices, encouraging more lending. This created 1920s prosperity while building unsustainable debt and asset bubbles that collapsed in 1929.

14. Standard Dimension Coverage (C • E • G • H • P • T • TCA)

Each TN standard carries dimension tags. This crosswalk shows where each dimension is taught within the standard — evidence of full coverage for adoption review. Students see these as plain-language “lenses” on each standard’s opening page.

15. Constructed Response (CER) — 6-Point Rubric

The course's canonical constructed-response scale. Student materials use the simple Full / Developing / Beginning per part; teachers score with the 6-point guide below (aligns with the DBQ/CER rubric bank).

Score	Level	What it looks like
6	Exemplary	Defensible, insightful claim; TWO or more precise, accurate pieces of evidence; reasoning fully explains HOW the evidence proves the claim; cohesive and sophisticated.
5	Advanced	Clear claim; strong, accurate evidence; reasoning explains the link with only minor gaps.
4	Proficient	Adequate claim; some specific evidence; reasoning present but general.
3	Adequate	Basic claim; limited or partly accurate evidence; reasoning thin.
2	Developing	Vague claim; little evidence; evidence largely unexplained.
1	Beginning	No clear claim; little or no evidence; no reasoning.

Swap in your bank's exact CER rubric text if it differs; the 6-point scale (6 Exemplary → 1 Beginning) is the course convention.

16. Exit Ticket Answer Keys + What's Next (reteach)

For teacher use only — keep separate from student copies. Each standard's Exit Ticket (end of the standard, on the CER page) with its key and reteach routing. Items are pre-field-test.
