

U.S. HISTORY HACK™

Unit Assessment Book

Unit 10 — Modern America (1965–2016) • Teacher Edition

HOW TO USE THIS BOOK

Three parts: (1) Formative Checkpoints — a short check per standard for progress monitoring (MTSS); (2) Unit Summative — two parallel forms (A and B) for pre/post or retakes; (3) Teacher Answer Key + Item Analysis + Reteach.

All items are pulled from the History Hack question bank. Classroom-formative • pre-field-test (pre-calibration) — not a secure TCAP form. First administration is what calibrates these items.

Administering these forms is what generates the response data to CALIBRATE the pre-calibrated items — the first cycle of use closes the loop.

Keys and reteach live in this teacher book only — reproduce the student sections (formative + Form A/B) without the key section.

Contents

Part 1 — Formative Checkpoints (by standard)

A quick DOK-balanced check for each standard. Use for progress monitoring; reteach routing is in the Teacher Key.
