TENNESSEE CONNECTION • BAKER, GORE & GIG CITY

Tennesseans shaped the modern era. Senator Howard Baker of Tennessee asked the defining Watergate question — “What did the President know, and when did he know it?” — then served as Ronald Reagan’s Chief of Staff (US.86, US.89). Al Gore of Carthage championed the “information superhighway” as Vice President and won the Nobel Peace Prize for climate advocacy (US.91, US.94). Fort Campbell’s 101st Airborne deployed to the Persian Gulf and, after 9/11, to Afghanistan (US.90, US.92). In 2010, Chattanooga — “Gig City” — launched the nation’s first citywide gigabit internet (US.94).

One common workbook designed for learner variability. Every student works toward the same Tennessee standards; supports vary the means, not the goal or the ceiling.

Source integrity. Every primary source in this unit is public-domain and cited to its holding repository (National Archives, Library of Congress, HathiTrust). See the Source Library.

Reading provenance (district-clear). Close-Read passages are labeled “History Hack-authored instructional synthesis” — they build on the standard record and are not presented as primary sources.

Framework stack. This workbook anchors to Tennessee U.S. History standards US.83–US.95 and the Social Studies Practices (SSP.01–SSP.06), and is designed on CAST UDL 3.0 and an MTSS support model.

Pacing. Each standard is built for **one 45-minute class period**. Each activity shows a 🕒 ~ **minutes** estimate at its heading. There is more here than one period holds — your teacher chooses which activities you do in class; the rest may become warm-ups, stations, or homework.

Standard US.83 — Johnson's Great Society Programs

TN Academic Standard US.83: Evaluate the impact of President Lyndon Johnson's Great Society programs, including: Medicare, urban renewal, and the War on Poverty.

LEARNING TARGETS — I can...

- I can evaluate the impact of President Lyndon Johnson's Great Society programs, including Medicare, urban renewal, and the War on Poverty.

Lenses for this standard: Politics/Government • Economics • Culture

CORE PATH — the same for every student

Same rigor for everyone: analyze the sources and vocabulary, then show what you learned on the Practice Quiz and the CER.

UDL and MTSS give you flexible ways in — they never lower the bar.

Check yourself against the learning targets on the Cornell Notes page.

★ Tennessee Connection

President Johnson's Great Society programs had outsized impact in Tennessee. The Appalachian Regional Commission invested heavily in eastern Tennessee's infrastructure and education. Medicare transformed healthcare access for Tennessee's elderly population, and Head Start programs expanded across the state's rural communities.

SET YOUR GOAL (self-direction)

My goal for this standard — what will I be able to do, and how will I show it?

HOOK — think before you dig in

Johnson's Great Society Programs: Evaluate the impact of President Lyndon Johnson's Great Society programs, including: Medicare, urban renewal, and the War on Poverty. Who gained, who was left out — and why does it still matter?

How did Medicare transform healthcare access for elderly Americans, and what challenges did it create?

- A. It provided health insurance for seniors who previously faced discrimination, reducing bankruptcies, but costs escalated beyond projections, creating fiscal challenges
- B. Medicare had no significant impact on elderly healthcare, although this overlooks critical economic and social factors when examined alongside the available primary and secondary sources
- C. Medicare only covered wealthy Americans, which contradicts the primary source evidence from this era, which does not align with the documented historical record
- D. The program was eliminated after one year due to lack of support, which contradicts the primary source evidence from this era, but closer analysis reveals a more complicated historical reality

Activity 4 — Close Read — US.83 ~15 min

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time

Great Society Programs Overview

President Johnson's Great Society (1964-1969) created an ambitious domestic agenda aimed at eliminating poverty and racial injustice. Key programs included: Medicare (health insurance for Americans over 65), Medicaid (health coverage for low-income families), Head Start (early childhood education for disadvantaged children), VISTA (Volunteers in Service to America—domestic Peace Corps), Elementary and Secondary Education Act (federal funding for schools), Urban Renewal (federal programs to rebuild inner cities), and the War on Poverty (comprehensive anti-poverty initiative).

Medicare's Effect on Healthcare

Medicare dramatically improved healthcare access for elderly Americans, who previously faced insurance discrimination due to age and pre-existing conditions. It reduced medical bankruptcies among seniors and established the principle of government-guaranteed healthcare. However, costs escalated beyond projections, creating long-term fiscal challenges and debates about healthcare spending that continue today.

Urban Renewal Consequences

Urban renewal projects often displaced low-income, predominantly minority communities to build highways, shopping centers, and middle-class housing. While intended to eliminate "slums," these programs frequently destroyed established neighborhoods, disrupted social networks, and contributed to racial segregation by concentrating displaced residents in public housing projects.

War on Poverty Effectiveness

The poverty rate fell from 22.4% in 1959 to 12.6% in 1970, suggesting initial success. Programs like Head Start and food stamps provided crucial support. However, poverty rates plateaued in the 1970s, and critics argued that welfare dependency increased. The initiative's mixed results sparked ongoing debates about government's role in addressing inequality.

Key terms first: Great Society, Medicare & Medicaid. Read once for the gist, then again for evidence.

CLOSE-READ EVIDENCE LAB — for each question: quote the EVIDENCE from the passage above, then write YOUR ANSWER (or answer aloud / diagram it).

★ Tennessee Connection

Tennessee experienced social change and counterculture in distinct ways. Nashville's vibrant music scene embraced countercultural influences, and Vanderbilt University became a center for student activism. The Highlander Research and Education Center continued training social justice activists throughout this era.

Activity 4 — Close Read — US.84 ~15 min

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time

Different Viewpoints on Social Activism

Supporters saw activism as necessary democratic participation addressing social injustices like civil rights, poverty, and unjust wars. Critics viewed protesters as unpatriotic radicals undermining American institutions, values, and military morale. This divide reflected fundamental disagreements about patriotism, authority, and social change.

The Generation Gap

The gap reflected fundamental differences between older Americans who experienced the Depression and World War II and younger Americans questioning authority, traditional values, and foreign policy. Younger Americans who had grown up in postwar prosperity felt freer to challenge the establishment their parents had built and defended.

The Hippie Movement

Hippies rejected materialism, embraced peace and love, experimented with drugs, and created alternative communities. They opposed the Vietnam War and promoted environmental awareness, influencing music, fashion, and social attitudes. Their lifestyle challenged middle-class conformity and sparked both admiration and outrage.

Woodstock's Significance

The 1969 music festival symbolized counterculture values of peace, music, and community. Despite logistical problems—rain, inadequate facilities, massive crowds—it demonstrated young Americans' desire for alternative social arrangements. Woodstock became an iconic moment of 1960s idealism, even as the decade's optimism soon gave way to disillusionment.

Key terms first: Hippie Values, Woodstock. Read once for the gist, then again for evidence.

[DOK 2 • item us84-q2 • pre-field-test]

What caused the "generation gap" between older and younger Americans in the 1960s?

- A. Older Americans shaped by Depression and WWII valued authority and conformity while younger Americans raised in prosperity questioned traditional values and institutions
- B. The generation gap was solely about music preferences, although this view has been largely discredited by scholars despite the fact that multiple contemporary sources contradict this
- C. There was no significant generational divide, despite the fact that multiple sources contradict this view, which does not align with the documented historical record
- D. Younger Americans were more conservative than their parents, which represents a common misconception about the period, which contradicts the primary source evidence from this era

[DOK 2 • item q-us94-3 • pre-field-test]

What impact has social media had on American political and social life?

- A. From landline phones and letters to smartphones, email, and social media
- B. It changed how people connect, share information, and engage in politics
- C. It put computing, communication, and internet access in everyone's pocket
- D. It revolutionized commerce, communication, information, and social life

[DOK 3 • item u1-us84-dok3-tc • pre-field-test]

How did the hippie movement challenge mainstream American values?

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time**Significant Achievements**

Nixon's achievements spanned multiple areas. Foreign Policy: Détente with the Soviet Union, opening relations with China, and the SALT I Treaty. Domestic Policy: Environmental Protection Agency creation, Title IX passage for gender equality in education, and desegregation enforcement. Economic Policy: Wage and price controls (temporary) and ending the gold standard. Social Policy: Lowered voting age to 18 through the 26th Amendment.

The "Silent Majority" Concept

Nixon appealed to Americans who didn't participate in protests but supported traditional values and law and order. This strategy targeted middle-class voters frustrated with civil rights demonstrations, antiwar protests, and counterculture movements. It helped Nixon win working-class Democratic voters and reshape Republican electoral strategy for decades, creating a coalition that would dominate American politics.

Major Foreign Policy Initiatives

China Opening: Secret diplomacy led to Nixon's historic 1972 China visit, establishing diplomatic relations and strategically isolating the Soviet Union. Détente: Reduced tensions with the USSR through arms control negotiations and increased trade. Vietnam: Vietnamization policy gradually withdrew American troops while maintaining support for South Vietnam, though the country ultimately fell in 1975.

CORE PATH — read one chunk at a time

The Break-in Circumstances

On June 17, 1972, five men were arrested breaking into Democratic National Committee headquarters at the Watergate complex. Initial investigations revealed connections to Nixon's reelection campaign (CREEP) and White House officials, suggesting political espionage rather than simple burglary. The cover-up that followed would prove more damaging than the original crime.

Media's Changing Role

Washington Post reporters Bob Woodward and Carl Bernstein conducted persistent investigative journalism, following money trails and cultivating sources (including "Deep Throat," later revealed as FBI Deputy Director Mark Felt). Television coverage brought congressional hearings into American homes, demonstrating media's power to hold government accountable and establishing investigative journalism as a crucial democratic institution.

United States v. Nixon

The Supreme Court unanimously ruled that executive privilege couldn't override judicial subpoenas for criminal proceedings. Nixon had to surrender White House tapes to prosecutors. This landmark decision established limits on presidential power and affirmed that no one, including the president, is above the law—a fundamental principle of American constitutional government.

Ford's Pardon and Legacy of Distrust

President Ford's unconditional pardon of Nixon (September 1974) sparked outrage among Americans seeking accountability. Supporters argued it was necessary to heal the nation; critics claimed it established double standards of justice. Watergate fundamentally altered Americans' relationship with government, creating lasting cynicism. Public trust fell from 73% in 1958 to 36% by 1974, influencing political culture for generations.

How did the Watergate scandal influence the role of investigative journalism?

- A. It demonstrated how the press could serve as a check on government
- B. It led Congress to pass laws restricting media coverage of politics
- C. It caused newspapers to avoid investigating political scandals entirely
- D. It reduced public trust in journalism and decreased newspaper sales

[DOK 2 • item q-us86-add-4 • pre-field-test]

How did Watergate change Americans' relationship with their government?

- A. It ruled that the president must comply with subpoenas and is not above the law
- B. It created a lasting legacy of distrust in government and political institutions
- C. A break-in at Democratic headquarters and Nixon's cover-up that led to his resignation
- D. He believed putting the interests of America first required his departure

[DOK 3 • item u1-us86-dok3-tc • pre-field-test]

How did investigative journalism during Watergate change the relationship between media and government?

- A. Media coverage had no significant impact on Watergate, which ignores key developments that shaped the outcome and fails to account for key developments in the broader context
- B. The media supported Nixon throughout the scandal, but the historical record tells a more complex story when examined alongside the available primary and secondary sources
- C. Journalism became less important after Watergate, which does not align with the documented historical record despite the fact that multiple contemporary sources contradict this
- D. Woodward and Bernstein's persistent investigation demonstrated media's power to hold government accountable, establishing investigative journalism as crucial to democracy

★ Tennessee Connection

Tennessee was at the center of environmental debates. The Tellico Dam controversy (1970s) pitted the TVA against environmentalists trying to protect the endangered snail darter fish, leading to a landmark Supreme Court case (TVA v. Hill, 1978) and congressional intervention. This case became a defining moment in the Endangered Species Act's history.

CORE PATH — read one chunk at a time

Factors Leading to the Environmental Movement

Several factors sparked environmental awareness: Rachel Carson's "Silent Spring" (1962) exposed pesticide dangers and their ecological impact. Visible pollution plagued cities with smog, rivers with contamination, and coastlines with oil spills. Earth Day 1970 brought massive public demonstrations supporting environmental protection. Growing scientific understanding of ecological interconnections raised alarm about long-term consequences.

EPA's Purpose and Functions

Created in 1970, the Environmental Protection Agency consolidated federal environmental responsibilities. Functions include setting pollution standards, enforcing environmental laws, conducting research, and regulating toxic substances. The EPA marked the federal government's commitment to environmental protection as a national priority, establishing America's framework for environmental regulation.

Love Canal Disaster

In Niagara Falls, New York, a school and homes were built on a former chemical waste dump. By the 1970s, residents experienced high rates of birth defects and cancer. The federal government relocated 239 families and declared the area uninhabitable. This disaster led to the Superfund program for cleaning up toxic waste sites, demonstrating the long-term consequences of industrial pollution.

Three Mile Island Accident

The 1979 nuclear accident in Pennsylvania involved partial reactor meltdown, radiation release, and evacuation recommendations. While health impacts were limited, the incident heightened public fears about nuclear power safety, effectively ending nuclear plant construction in the United States for decades and strengthening arguments for alternative energy sources.

Key terms first: Love Canal, Three Mile Island. Read once for the gist, then again for evidence.

CORE PATH — read one chunk at a time

Economic Difficulties

Carter faced "stagflation"—simultaneous high inflation (13.5% by 1980) and unemployment (7.6%). Energy costs soared, interest rates reached 20%, and economic growth stagnated. Carter's response included voluntary wage-price guidelines and Federal Reserve monetary tightening, but these measures proved insufficient to solve the complex economic crisis.

Energy Crisis Implications

Two oil crises (1973-74, 1979) created gas shortages, long lines at stations, and economic disruption. Carter promoted energy conservation, created the Department of Energy, and called for reduced dependence on foreign oil. However, public frustration with gas lines and heating oil costs damaged his political standing and raised questions about American vulnerability to foreign energy suppliers.

Panama Canal Treaty

The 1977 treaties gradually transferred canal control to Panama by 1999, ending American colonial presence in Central America. While strategically sound (the canal was becoming militarily obsolete), the treaties faced fierce domestic opposition from conservatives who viewed them as signs of American weakness and retreat from global commitments.

Iran Hostage Crisis

After the Shah's overthrow in 1979, Iranian revolutionaries seized the U.S. Embassy, holding 52 Americans hostage for 444 days. Carter's failed rescue mission and inability to secure release dominated his presidency's final year, contributing to perceptions of American weakness and his 1980 electoral defeat to Ronald Reagan.

Camp David Accords

Carter mediated 13 days of negotiations between Egypt's Sadat and Israel's Begin, producing a framework for Middle East peace. Egypt recognized Israel and regained the Sinai Peninsula, while Israel withdrew from occupied Egyptian territory. This represented the first Arab-Israeli peace agreement and Carter's greatest foreign policy achievement.

- B. Iranian militants held 52 Americans for 444 days, undermining Carter's presidency
- C. A peace agreement between Egypt and Israel brokered by President Carter
- D. He brokered the first peace agreement between Israel and an Arab nation

[DOK 3 • item u1-us88-dok3-tc • pre-field-test]

What economic challenges did President Carter face, and why were his solutions unsuccessful?

- A. Carter faced no significant economic challenges, although this overlooks critical economic and social factors, and this view has been largely revised by modern historical research
- B. Stagflation combined high inflation and unemployment; his voluntary guidelines and monetary tightening proved insufficient against these complex, interconnected problems
- C. The economy thrived during Carter's presidency, although historical sources do not support this conclusion and oversimplifies the complex factors at work during this period
- D. Carter's policies immediately solved all economic problems, although this overlooks critical economic and social factors, which ignores significant political and cultural developments of the era

Activity 4 — Close Read — US.89 ~15 min

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time

Strategies for Enhancing National Pride

Reagan restored American confidence through optimistic rhetoric ("Morning in America"), military buildup demonstrating strength, and successful foreign interventions (Grenada). His communication skills and personal charisma helped Americans feel proud of their country again after Vietnam, Watergate, and the Iran hostage crisis had damaged national morale.

Reaganomics Principles and Impacts

Principles: Supply-side economics emphasizing tax cuts, deregulation, and reduced government spending (except defense). Impacts: Economic growth resumed and inflation fell, but income inequality increased and federal deficits soared. Tax cuts primarily benefited wealthy Americans, while social program cuts affected the poor, creating debates about fairness that continue today.

Strategic Defense Initiative

"Star Wars" proposed a space-based missile defense system to protect against nuclear attack. Reagan believed this would make nuclear weapons "impotent and obsolete" while demonstrating American technological superiority. Critics argued it was technologically unfeasible and destabilizing to arms control, though some credit it with pressuring the Soviet Union.

Iran-Contra Affair

The Reagan administration secretly sold arms to Iran to fund Nicaraguan Contras, violating congressional prohibitions. When exposed, it revealed illegal activities, damaged Reagan's credibility, and led to criminal convictions of several officials. The scandal raised questions about presidential knowledge and adherence to constitutional limits on executive power.

AIDS Epidemic Response

Reagan's delayed and inadequate response to AIDS reflected social prejudices and conservative values. The administration initially ignored the crisis, providing minimal funding for research or prevention. This delayed response contributed to the epidemic's spread and thousands of preventable deaths, creating lasting criticism of Reagan's public health leadership.

Key terms first: Reaganomics, Iran-Contra Affair. Read once for the gist, then again for evidence.

Panama Invasion

Operation Just Cause (1989) removed dictator Manuel Noriega, who had been indicted for drug trafficking and was threatening American citizens. The invasion demonstrated post-Cold War American willingness to use military force for law enforcement and humanitarian purposes, establishing precedents for future interventions.

Gulf War Context and Outcomes

When Iraq invaded Kuwait (1990), Bush assembled an international coalition and obtained UN authorization for military action. Operation Desert Storm (1991) quickly liberated Kuwait with minimal coalition casualties, demonstrating American military superiority, effective international diplomacy, and the potential for multilateral action in the post-Cold War world.

Fall of Berlin Wall and Soviet Collapse (Honors)

The Berlin Wall's fall (1989) symbolized communism's collapse and the Cold War's end. Bush managed this transition carefully, avoiding triumphalism that might provoke Soviet hardliners while supporting German reunification. The Soviet Union's dissolution (1991) left America as the world's sole superpower, creating new global responsibilities and challenges for American foreign policy.

Geographer's Lens — US.90 ~12 min

Geographers don't just find places — they explain how WHERE shapes WHAT happens. Work these like a geographer. Built on the Five Themes of Geography • C3 Dimension 2 • SSP.06 (spatial reasoning).

THE PLACES — then explain why geography put them there

The Cold War ended on the map, not just in speeches. As the Soviet bloc collapsed and the U.S. led a coalition in the Persian Gulf, geography decided who was freed, who was invaded, and where American power went next. Locate each place, then explain how its geography shaped the event.

Place	Where	What happened (given)	Why HERE? (your analysis)
Berlin, Germany	Central Europe	Nov. 1989 — the Berlin Wall falls; the divided city reunites as the Cold War thaws	
Eastern Europe (Poland, Hungary, Czechoslovakia)	Soviet bloc	1989 — mostly peaceful revolutions end communist rule across the region	
Soviet Union → Russia	Eurasia	1991 — the USSR dissolves into 15 independent republics; the Cold War ends	
Kuwait & Iraq	Persian Gulf	1990–91 — Iraq invades Kuwait; a U.S.-led coalition drives it out in the Gulf War	
Saudi Arabia	Persian Gulf	Staging ground for Operation Desert Shield/Storm; oil geography shapes the coalition	

MOVEMENT & REGION — what's the spatial pattern?

In 1–2 sentences: is this a movement, a cluster, or a whole region? Name the direction or shape it takes on a map.

GEOGRAPHY AS A FORCE — how did location shape the outcome?

How did geography change WHAT happened — who was affected, how far or fast it spread, or who was left out? Use one place above as your evidence.

Activity 4 — Close Read — US.91 ~15 min

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time

NAFTA Goals and Outcomes

The North American Free Trade Agreement (1994) eliminated trade barriers between the U.S., Canada, and Mexico. Supporters argued it would increase trade and economic growth. Critics claimed it would cost American jobs and exploit Mexican workers. Results were mixed—trade increased significantly, but manufacturing jobs moved to Mexico, intensifying debates about globalization.

Welfare-to-Work Transition

The 1996 Personal Responsibility and Work Opportunity Act replaced Aid to Families with Dependent Children (AFDC) with Temporary Assistance for Needy Families (TANF). The new system required work or job training and imposed time limits on benefits. Welfare rolls declined dramatically, but poverty reduction was limited, raising questions about whether people left poverty or just left welfare.

Scandals and Impeachment

Clinton faced multiple scandals, including Whitewater real estate investments and sexual harassment allegations. The Monica Lewinsky affair led to impeachment charges for perjury and obstruction of justice. The House impeached Clinton, but the Senate acquitted him, reflecting partisan divisions and debates about whether personal conduct should determine political consequences.

Balanced Budget Significance

Clinton achieved the first balanced federal budget since 1969, aided by economic growth, tax increases on high earners, and spending restraint. Budget surpluses in the late 1990s reduced national debt and demonstrated fiscal responsibility, though this achievement proved temporary as surpluses disappeared under subsequent administrations.

Key terms first: NAFTA, Economic Success. Read once for the gist, then again for evidence.

[DOK 2 • item us91-q3 • pre-field-test]

What scandals led to Clinton's impeachment, and why did the Senate acquit him?

- A. The House impeached him for perjury and obstruction in the Lewinsky affair, but the Senate acquitted him along partisan lines, lacking the two-thirds majority for removal
- B. Clinton was never impeached, yet the available evidence points to a different conclusion, but the historical evidence paints a more nuanced picture
- C. Clinton was removed from office, despite limited evidence supporting this interpretation, although historical sources do not support this conclusion
- D. The impeachment was related to foreign policy, although this overlooks critical economic and social factors and oversimplifies the complex factors at work during this period

[DOK 2 • item q-us91-3 • pre-field-test]

How did welfare reform under Clinton change government assistance programs?

- A. Sustained economic expansion, low unemployment, and a technology boom
- B. It replaced welfare with time-limited assistance and work requirements
- C. It eliminated most tariffs between the United States, Canada, and Mexico
- D. Perjury and obstruction of justice related to testimony about his conduct

[DOK 3 • item u1-us91-dok3-tc • pre-field-test]

What were the goals of NAFTA, and how did it affect American workers and the economy?

How did welfare reform change the relationship between government assistance and work requirements?

- A. Welfare reform eliminated all government assistance, which ignores key developments that shaped the outcome
- B. Welfare reform removed all work requirements, despite limited evidence supporting this interpretation, which contradicts the primary source evidence from this era
- C. TANF replaced AFDC with work requirements and time limits, dramatically reducing welfare rolls while raising questions about poverty reduction
- D. The changes only affected elderly recipients, but this oversimplifies the complex factors at work and does not reflect the scholarly consensus on this topic

★ Tennessee Connection

Tennessee responded to the September 11 attacks with significant military mobilization. Fort Campbell's 101st Airborne Division was among the first conventional forces deployed to Afghanistan in Operation Enduring Freedom. Tennessee also enhanced security at key facilities including the Oak Ridge nuclear complex and Nashville's critical infrastructure.

Activity 4 — Close Read — US.92 ~15 min

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time

Bush's Domestic and International Response

Domestic: Created Department of Homeland Security, passed USA PATRIOT Act expanding surveillance powers, increased airport security, and launched domestic surveillance programs. International: Declared "War on Terror," demanded Taliban surrender Osama bin Laden, and assembled international coalition for Afghanistan invasion to destroy al-Qaeda and remove the Taliban.

Afghanistan War

Justified as self-defense against al-Qaeda and Taliban harboring terrorists, the Afghanistan invasion initially succeeded in removing Taliban from power. However, it evolved into the longest war in American history with limited success in nation-building. Questions persisted about exit strategies and whether military force could transform Afghan society.

Iraq War

Bush claimed Saddam Hussein possessed weapons of mass destruction and supported terrorism. The invasion succeeded militarily but created regional instability, sectarian violence, and damaged American credibility when WMD claims proved false. The war raised fundamental questions about intelligence, justification for preemptive war, and occupation strategies.

Global Counter-terrorism Efforts

The "War on Terror" included military operations in multiple countries, intelligence sharing with allies, financial tracking of terrorist organizations, and diplomatic pressure on nations supporting terrorism. Success in preventing major attacks on American soil was offset by concerns about civil liberties, international law violations, and whether military approaches address terrorism's root causes.

Key terms first: War on Terror, Homeland Security. Read once for the gist, then again for evidence.

Geographer's Lens — US.92 ~12 min

Geographers don't just find places — they explain how WHERE shapes WHAT happens. Work these like a geographer. Built on the Five Themes of Geography • C3 Dimension 2 • SSP.06 (spatial reasoning).

THE PLACES — then explain why geography put them there

The September 11, 2001 attacks struck three separate places on one morning — each chosen for what it symbolized and where it stood. Locate the three sites, then explain how geography shaped both the attacks and the nation's response.

Place	Where	What happened (given)	Why HERE? (your analysis)
World Trade Center, New York City	Northeast — financial capital	Two hijacked jets destroy the Twin Towers, symbol of U.S. economic power	
The Pentagon, Arlington, Virginia	Washington, D.C. area	A third jet strikes the headquarters of the U.S. military	
Shanksville, Pennsylvania	Rural Appalachia	United 93 crashes after passengers fight back, short of its Washington target	

MOVEMENT & REGION — what's the spatial pattern?

In 1–2 sentences: is this a movement, a cluster, or a whole region? Name the direction or shape it takes on a map.

GEOGRAPHY AS A FORCE — how did location shape the outcome?

How did geography change WHAT happened — who was affected, how far or fast it spread, or who was left out? Use one place above as your evidence.

Hillary Clinton's Contributions

First Lady (1993-2001), U.S. Senator from New York (2001-2009), Secretary of State (2009-2013), and first woman nominated for president by a major party (2016). She advocated for healthcare reform, women's rights, and children's issues while breaking gender barriers in American politics at the highest levels.

Colin Powell's Leadership

First Black Chairman of Joint Chiefs of Staff (1989-1993), oversaw Gulf War success, served as Secretary of State (2001-2005). His military leadership and diplomatic service demonstrated minority advancement in national security positions while maintaining broad public respect across political lines.

Sandra Day O'Connor's Pioneering Impact

First woman Supreme Court Justice (1981-2006), appointed by Reagan. Her moderate conservative positions often provided swing votes on crucial cases. She opened the door for women in the legal profession's highest position and demonstrated that gender need not determine judicial philosophy.

Condoleezza Rice's Foreign Policy Role

First Black woman National Security Advisor (2001-2005) and Secretary of State (2005-2009). Her expertise in Soviet/Russian affairs and close relationship with President Bush made her influential in post-9/11 foreign policy, particularly regarding Iraq and democracy promotion.

Nancy Pelosi's Political Leadership

First woman Speaker of the House (2007-2011, 2019-2023), highest-ranking woman in American government. She led Democratic opposition to Bush policies, shepherded Obama's legislative agenda including healthcare reform, and managed Trump's impeachment proceedings, demonstrating women's leadership in legislative politics.

[DOK 2 • item us93-q2 • pre-field-test]

What significance did Colin Powell's military and diplomatic leadership have for minority advancement?

- A. As the first Black Chairman of Joint Chiefs and Secretary of State, he demonstrated minority advancement in national security while earning bipartisan respect
- B. Powell's positions had no broader significance, which contradicts the primary source evidence from this era, although this overlooks critical economic and social factors involved
- C. Powell served only in advisory roles, which contradicts the primary source evidence from this era and oversimplifies the complex factors at work during this period
- D. His appointments were opposed by most Americans, but contemporary accounts suggest a different explanation, though this interpretation lacks supporting historical evidence

[DOK 2 • item us93-q3 • pre-field-test]

How did Sandra Day O'Connor's Supreme Court service change opportunities for women in law?

- A. O'Connor's appointment had no broader impact, but this fails to account for the broader historical context
- B. As the first woman Justice, she proved women could serve at the highest judicial level and often cast decisive swing votes on major cases
- C. She served for only one term, which contradicts the primary source evidence from this era, but contemporary accounts and primary sources suggest otherwise
- D. O'Connor was a liberal activist judge, but this oversimplifies the complex factors at work, but closer analysis reveals a more complicated historical reality

★ Tennessee Connection

Tennessee has been part of the communications revolution. The Chattanooga Electric Power Board launched the first citywide 1-gigabit-per-second internet service in the United States in 2010, making Chattanooga ('Gig City') a model for municipal broadband. Nashville became a growing tech hub attracting major companies.

Activity 4 — Close Read — US.94 ~15 min

Reading type: History Hack-authored instructional synthesis. This is not a primary source. Builds SSP.03 (synthesize) and SSP.05 (historical awareness).

CORE PATH — read one chunk at a time

1970s Communication Technologies

Landline telephones were the primary voice communication method. Television, dominated by three major networks, provided news and entertainment. Radio remained important for music and local news. Newspapers were the primary source for detailed news coverage. Mail served as the standard written communication method. Communication was slower, more deliberate, and geographically constrained.

Present-Day Communication Methods

Smartphones integrate voice, text, internet, and multimedia capabilities. Social media platforms like Facebook, Twitter, and Instagram enable instant global communication. Email is the primary business and formal communication method. Video conferencing through Zoom and similar platforms allows face-to-face remote communication. Streaming services have replaced traditional television viewing patterns.

Comparing Characteristics and Limitations

1970s advantages: More face-to-face interaction, deeper news analysis, less information overload. 1970s limitations: Slower communication, limited information access, geographic barriers. Present advantages: Instant global communication, unlimited information access, multimedia capabilities. Present limitations: Information overload, privacy concerns, reduced attention spans, cybersecurity threats.

Societal Impact

Communication evolution has transformed culture (global connectivity, viral content), economy (e-commerce, remote work), governance (social media campaigns, digital democracy), and relationships (online dating, long-distance connections, but also reduced face-to-face interaction and increased isolation). These changes continue to reshape American society in profound ways.

Major Achievements

Healthcare: Affordable Care Act (Obamacare) expanded health insurance to millions of uninsured Americans. Economic Recovery: American Recovery and Reinvestment Act helped end Great Recession, with unemployment falling from 10% to 4.7%. Foreign Policy: Paris Climate Agreement, Iran nuclear deal, normalized relations with Cuba, and killing of Osama bin Laden. Social Progress: Marriage equality advancement and DACA program for young immigrants.

Significant Setbacks

Legislative battles: Republican opposition limited Obama's agenda after 2010 midterm losses, leading to government shutdowns and debt ceiling crises. Foreign policy challenges: Syrian civil war response, ISIS emergence, Russian aggression in Ukraine, and the Benghazi attack created difficult situations without clear solutions.

Partisan Conflicts

Obama faced unprecedented Republican obstruction, including blocking his Supreme Court nomination of Merrick Garland for nearly a year. Racial tensions persisted despite—and sometimes because of—having the first Black president. His presidency demonstrated both the possibilities and limitations of presidential power in an increasingly polarized political environment.

- D. Democrats controlled Congress throughout his presidency, but this oversimplifies the complex factors at work, although historical sources do not support this conclusion

Activity 7 — Constructed Response (CER) — US.95 ~15 min

BIG-QUESTION ORGANIZER — how did Americans fight to make the promise of equality real, and what did it take to change the law and the nation?

Jot quick notes from THIS standard: Who benefited? • Who bore the costs? • Who decided?

CONSTRUCTED RESPONSE (CER) — builds SSP.04 Argumentation

Claim + Evidence + Reasoning: Using this standard, take a position on the central question — describe the achievements and setbacks of President Barack Obama's administration? Support your claim with two pieces of evidence from the passage and explain your reasoning.

SELF-CHECK (CER rubric — see Toolkit)

Is my claim defensible? • TWO specific pieces of evidence? • Does my reasoning explain HOW the evidence proves the claim?

EXIT TICKET — before you leave [item us95-q1 • DOK 2 • pre-field-test]

What were President Obama's major domestic achievements, particularly in healthcare and economic recovery?

- A. Obama had no significant domestic achievements, which does not align with the documented historical record and oversimplifies the complex factors at work during this period
- B. Obama's policies worsened the economic crisis, despite the fact that multiple sources contradict this view when examined alongside the available primary and secondary sources
- C. The Affordable Care Act expanded health coverage to millions while the Recovery Act helped end the Great Recession, reducing unemployment from 10% to 4.7%
- D. Healthcare reform was never attempted, though this interpretation lacks supporting historical evidence, but contemporary accounts and primary sources suggest otherwise

Your Tennessee Connection

TENNESSEE CONNECTION • TENNESSEANS IN THE MODERN ERA

Tennessee shaped the modern era at every turn. Senator Howard Baker of Tennessee asked the defining

Watergate question — “What did the President know, and when did he know it?” — as vice chairman of the Senate Watergate Committee, then served as Ronald Reagan’s Chief of Staff (US.85, US.86, US.89). The Great Society reached deep into the state: the Appalachian Regional Commission rebuilt East Tennessee infrastructure, and Medicare and Head Start expanded statewide (US.83). The Tellico Dam fight over the snail darter produced the landmark TVA v. Hill environmental ruling (US.87). Al Gore of Carthage championed the “information superhighway” and climate action (US.91, US.94); Fort Campbell’s 101st Airborne deployed to the Gulf War and to Afghanistan after 9/11 (US.90, US.92); and in 2010 Chattanooga — “Gig City” — launched the nation’s first citywide gigabit internet (US.94).

Reflect (RESPONSE CHOICE): How does a local story change the way you understand a national event? Answer by writing, recording, or diagramming.

Local History Investigation

The modern era reached every Tennessee community — through federal programs, new technology, military service, and changing industries. Investigate one local connection and record what you find.

US.83: Using this standard, take a position on the central question — evaluate the impact of President Lyndon Johnson's Great Society programs, including Medicare, urban renewal, and the War on Poverty? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.84: Using this standard, take a position on the central question — analyze different points of view that reflect the rise of social activism and the growth of counterculture, including the generation gap, hippies, and Woodstock? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.85: Using this standard, take a position on the central question — explain significant achievements of President Richard Nixon's administration, including his appeal to the "silent majority" and his major foreign policy actions? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.86: Using this standard, take a position on the central question — examine the Watergate scandal, including the background of the break-in, the changing role of media, President Ford's pardon controversy, the legacy of distrust, and United States v. Nixon? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.87: Using this standard, take a position on the central question — explain the emergence of environmentalism, including the creation of the Environmental Protection Agency and disasters such as Love Canal and Three Mile Island? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.88: Using this standard, take a position on the central question — identify and explain the significant events of President Jimmy Carter's administration, including the poor economy, Panama Canal Treaty, Camp David Accords, energy crisis, and Iran Hostage Crisis? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.89: Using this standard, take a position on the central question — analyze the significance of President Ronald Reagan's administration, including the revitalization of national pride, Reaganomics, Iran-Contra affair,

"War on Drugs," Strategic Defense Initiative, and the AIDS epidemic? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.90: Using this standard, take a position on the central question — describe the significant events of President George H.W. Bush's administration, including the invasion of Panama and the Gulf War? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.91: Using this standard, take a position on the central question — summarize the events of President Bill Clinton's administration, including welfare-to-work, balanced budget, NAFTA, and scandals and subsequent impeachment hearings? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.92: Using this standard, take a position on the central question — describe the impact of the September 11, 2001 terrorist attacks on the World Trade Center and the Pentagon, including the response of President George W. Bush, wars in Afghanistan and Iraq, and continued efforts to combat terrorism globally? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.93: Using this standard, take a position on the central question — describe the increasing role of women and minorities in the American military, politics, and economy, including Hillary Clinton, Sandra Day O'Connor, Nancy Pelosi, Colin Powell, and Condoleezza Rice? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.94: Using this standard, take a position on the central question — compare and contrast commonly used methods of communication from 1970 to today, and analyze the impact they have had on society? Support your claim with two pieces of evidence from the passage and explain your reasoning.

US.95: Using this standard, take a position on the central question — describe the achievements and setbacks of President Barack Obama's administration? Support your claim with two pieces of evidence from the passage and explain your reasoning.

Think Like a Test-Writer (unit review — open to all)

You met a quick "think like a test-writer" prompt in every standard. Here is the full how-to, once, plus room to write your best questions for the whole unit.

HOW TO WRITE A DOK-3 QUESTION

DOK-3 = strategic thinking: the reader must analyze, compare, evaluate, or justify using evidence — and there should be more than one defensible answer (not a fact you can just look up).

Sentence starters: "Why did _____ lead to _____?" • "Which mattered more — _____ or _____ — and why?" • "What is the BEST evidence that _____?" • "Evaluate whether _____." • "Defend or challenge: _____."

Frame: [Analyze / Evaluate / Justify] + [something from this unit] + "using evidence."

Quick check: does my question make the reader THINK and use evidence? If yes, it's DOK-3.

The Making of Modern America — Four Threads

This section connects the threads of the era: between the 1960s and today, Americans remade the role of government, weathered crises of trust and economy, ended the Cold War, and confronted a new century. It is History Hack-authored instructional synthesis grounded in this unit's sourced record — not a primary source.

A New Domestic Order

Johnson's Great Society vastly expanded the federal safety net — Medicare, Medicaid, the War on Poverty, and federal aid to schools (US.83) — while a youth counterculture and new activist movements challenged authority and widened the meaning of rights (US.84).

A Crisis of Trust

Vietnam and then the Watergate scandal shattered public faith in government: Nixon's achievements abroad were eclipsed by a cover-up that forced his resignation (US.85–US.86), and Carter inherited stagflation, an energy crisis, and the Iran hostage crisis (US.88).

Conservative Resurgence & the Cold War's End

Reagan cut taxes, expanded defense, and pressed the Soviet Union (US.89); under Reagan and George H.W. Bush the Berlin Wall fell and the USSR dissolved, and a U.S.-led coalition won the Gulf War (US.90). Clinton then governed a booming, globalizing, increasingly digital economy (US.91, US.94).

A New Century's Challenges

The September 11 attacks launched a long war on terror and reshaped security at home (US.92); a more diverse nation saw women and minorities rise to the highest offices, culminating in Obama's presidency (US.93, US.95); and environmental awareness grew throughout the era (US.87).

Unit Reflection

Return to the unit's big question: how did Americans remake government, the economy, and the nation's place in the world between the 1960s and today — and what did it cost? Write a final claim with two pieces of evidence from different standards.
