

## U.S. HISTORY HACK™

# Teacher Graphic Organizer Toolkit

Unit 2 — The Progressive Era (1890–1920) • Reproducible

### WHY THIS TOOLKIT

Knowing WHICH organizer to use, and WHEN, is half the battle. This toolkit tells you — with a brief why for each — then gives you reproducible blanks (Part 1) and per-standard Cornell support backs (Part 2). Tennessee connections are highlighted throughout; the local-to-national move is a HistoryHack signature and a point of difference for our classrooms.

## Which Organizer, When — Quick Guide

Scan the left column for what the activity asks students to do; reach for the organizer on the right. Every organizer in Part 1 also carries its own “when to use · why it works” note.

| When the task asks students to...         | Reach for...                | Why it works                                                      |
|-------------------------------------------|-----------------------------|-------------------------------------------------------------------|
| compare / contrast TWO things             | Venn (2) or T-Chart         | Marzano's highest-yield strategy; the overlap names shared traits |
| compare 3+ things on set criteria         | Compare & Contrast Matrix   | systematic; lowers cognitive load                                 |
| explain causes / effects                  | Cause & Effect              | makes causal chains visible (SSP.05)                              |
| put events in order / show change         | Timeline / Sequence         | builds chronological reasoning (SSP.05)                           |
| brainstorm or connect ideas               | Concept Web                 | activates prior knowledge; shows relationships                    |
| summarize a text or source                | Main Idea & Details         | separates the central idea from support                           |
| activate prior knowledge & track learning | KWL                         | metacognition; frames inquiry                                     |
| learn a key term deeply                   | Frayer                      | deep vocabulary processing                                        |
| analyze a primary source                  | HIPPO / OPTIC               | disciplinary sourcing (SSP.01–02)                                 |
| make and defend a claim                   | CER                         | claim + evidence + reasoning (SSP.04)                             |
| weigh two sides / a decision              | T-Chart or Problem–Solution | structures evaluation                                             |
| capture the basics of an event            | 5 Ws                        | ensures full coverage                                             |
| connect a national event to Tennessee     | ★ Tennessee Connection      | our signature local-to-national move                              |

*Reproducible — you may copy these pages for classroom use.*

## Part 1 — Reusable Blank Organizers (all subjects, all units)

Content-agnostic blanks. Print as many as you need; use across any standard or subject.

factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

### Venn (3) / Triple T-Chart — Compare THREE

**WHEN TO USE • WHY IT WORKS**  
Comparing three people, groups, or ideas. Use the columns for each item and note shared traits in your notes.

| Item A              | Item B | Item C |
|---------------------|--------|--------|
| Trait / criterion 1 |        |        |
| Trait / criterion 2 |        |        |
| Trait / criterion 3 |        |        |
| Trait / criterion 4 |        |        |

**MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)**  
Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.  
Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”  
Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).  
Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

Two categories to sort or weigh: benefits vs costs, pros vs cons, before vs after, cause vs effect. Fast, low-floor entry point for comparison.

[illegible]

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

Compare & Contrast Matrix — Items × Criteria

**WHEN TO USE • WHY IT WORKS**

Comparing several items across the SAME set of criteria. Reduces cognitive load by making the comparison systematic.

| Criterion | Item 1 | Item 2 | Item 3 |
|-----------|--------|--------|--------|
|           |        |        |        |
|           |        |        |        |
|           |        |        |        |
|           |        |        |        |
|           |        |        |        |
|           |        |        |        |
|           |        |        |        |

**MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)**

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

Cause & Effect — Causal Chains

WHEN TO USE • WHY IT WORKS

Task asks “what caused...?”, “what were the effects/consequences of...?” Makes causal reasoning visible (builds SSP.05).

| Cause | → | Effect |
|-------|---|--------|
|       | → |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       | → |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       | → |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       | → |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |
|       |   |        |

MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

## Timeline / Sequence — Chronology

## WHEN TO USE • WHY IT WORKS

Ordering events or tracing change over time. Builds chronological reasoning (SSP.05).

[illegible]

## MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

Activating prior knowledge or showing how ideas relate to a central concept. Great as a pre-reading or review move.

## MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

Start of a standard: what students Know / Want to know; end: what they Learned. Builds metacognition and frames inquiry.

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

5 Ws — Cover the Basics of an Event

WHEN TO USE • WHY IT WORKS

Making sure students capture who/what/when/where/why of an event before analysis.

| Question | Answer                                                      |
|----------|-------------------------------------------------------------|
| Who?     | <div></div> <div></div> <div></div> <div></div> <div></div> |
| What?    | <div></div> <div></div> <div></div> <div></div> <div></div> |
| When?    | <div></div> <div></div> <div></div> <div></div> <div></div> |
| Where?   | <div></div> <div></div> <div></div> <div></div> <div></div> |
| Why?     | <div></div> <div></div> <div></div> <div></div> <div></div> |

MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “ \_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

Analyzing a problem and the responses to it (e.g., a policy or reform). Structures evaluation.

## MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

## Frayer Model — Deep Vocabulary

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>WHEN TO USE • WHY IT WORKS</b><br>Learning a key term deeply (definition, characteristics, examples, non-examples).                                                                                                                                                                                                                                                                                                                                                                  |                                                                                     |
| <b>Definition (own words)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                           | <b>Characteristics</b>                                                              |
| <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div>                                                                                                                                                                                                                                                                                                                                                                                                     | <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> |
| <b>Examples</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | <b>Non-examples</b>                                                                 |
| <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div>                                                                                                                                                                                                                                                                                                                                                                                                     | <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> |

CER — Build an Argument

WHEN TO USE • WHY IT WORKS

Any “make a claim / defend / argue” task. Claim + two pieces of evidence + reasoning (builds SSP.04).

| Part                     | Write here                                                                                      |
|--------------------------|-------------------------------------------------------------------------------------------------|
| Claim                    | <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div>             |
| Evidence (two specifics) | <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> |
| Reasoning                | <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> <div></div> |

MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

## HIPPO — Analyze a Primary Source

### WHEN TO USE • WHY IT WORKS

Analyzing a photo, cartoon, map, or document (builds SSP.01–SSP.02). Pair with OPTIC for visuals.

| H-I-P-P-O                     | Prompt / notes          |
|-------------------------------|-------------------------|
| <b>H — Historical context</b> | <hr/> <hr/> <hr/> <hr/> |
| <b>I — Intended audience</b>  | <hr/> <hr/> <hr/> <hr/> |
| <b>P — Purpose</b>            | <hr/> <hr/> <hr/> <hr/> |
| <b>P — Point of view</b>      | <hr/> <hr/> <hr/> <hr/> |
| <b>O — Outside connection</b> | <hr/> <hr/> <hr/> <hr/> |

### MAKE IT WORK FOR EVERY STUDENT (UDL • MTSS)

**Scaffold** — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

**Extend** — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

**Show it your way** — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “\_\_\_\_\_ because \_\_\_\_\_, which shows \_\_\_\_\_.”

## Part 2 — Cornell Support Backs (per standard, reproducible)

Guided and Light scaffolds for each standard's Cornell notes — moved here from the student workbook so you copy them only as needed (MTSS). Fade Guided → Light → independent as evidence grows.

## US.08 — Social Darwinism & Social Gospel: Cornell Support Backs

*Reproducible — scaffolds ONLY the Cornell notes for this standard. Copy for students who need them; fade as evidence grows. Not a track, not a separate grade.*

### Guided Support

| Key vocabulary          | What it means                                                                                                                                                                                           |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Social Darwinism</b> | The belief that Charles Darwin's theory of natural selection applied to human society, arguing that the wealthy succeeded because they were naturally superior and that poverty resulted from weakness. |
| <b>Social Gospel</b>    | A religious movement that emphasized the need to apply Christian principles to social problems like poverty, inequality, and workers' rights, advocating for social reform and justice.                 |
| <b>Settlement House</b> | Community centers in poor urban neighborhoods that provided education, childcare, healthcare, and social services to immigrants and the poor.                                                           |

Break it into steps: 1) Name one cause or effect. 2) Give one piece of evidence. 3) Write one sentence explaining the link.

#### Sentence frame

One key cause/effect of social darwinism & social gospel was \_\_\_\_\_, shown by \_\_\_\_\_, which mattered because \_\_\_\_\_.

#### Modeled example (one worked note — yours will differ)

A key idea of social darwinism & social gospel was Social Darwinism: The belief that Charles Darwin's theory of natural selection applied to human society, arguing that the wealthy succeeded because they were naturally superior and that poverty resulted from weakness.
