

U.S. HISTORY HACK™

Teacher Graphic Organizer Toolkit

Unit 3 — Imperialism and World War I (1890–1920) • Reproducible

WHY THIS TOOLKIT

Knowing WHICH organizer to use, and WHEN, is half the battle. This toolkit tells you — with a brief why for each — then gives you reproducible blanks (Part 1) and per-standard Cornell support backs (Part 2). Tennessee connections are highlighted throughout; the local-to-national move is a HistoryHack signature and a point of difference for our classrooms.

Which Organizer, When — Quick Guide

Scan the left column for what the activity asks students to do; reach for the organizer on the right. Every organizer in Part 1 also carries its own “when to use · why it works” note.

When the task asks students to...	Reach for...	Why it works
compare / contrast TWO things	Venn (2) or T-Chart	Marzano's highest-yield strategy; the overlap names shared traits
compare 3+ things on set criteria	Compare & Contrast Matrix	systematic; lowers cognitive load
explain causes / effects	Cause & Effect	makes causal chains visible (SSP.05)
put events in order / show change	Timeline / Sequence	builds chronological reasoning (SSP.05)
brainstorm or connect ideas	Concept Web	activates prior knowledge; shows relationships
summarize a text or source	Main Idea & Details	separates the central idea from support
activate prior knowledge & track learning	KWL	metacognition; frames inquiry
learn a key term deeply	Framer	deep vocabulary processing
analyze a primary source	HIPPO / OPTIC	disciplinary sourcing (SSP.01–02)
make and defend a claim	CER	claim + evidence + reasoning (SSP.04)
weigh two sides / a decision	T-Chart or Problem–Solution	structures evaluation
capture the basics of an event	5 Ws	ensures full coverage
connect a national event to Tennessee	★ Tennessee Connection	our signature local-to-national move

Reproducible — you may copy these pages for classroom use.

Part 1 — Reusable Blank Organizers (all subjects, all units)

Content-agnostic blanks. Print as many as you need; use across any standard or subject.

Task says “compare,” “contrast,” “how are they alike/different?” for TWO things. Marzano’s #1 strategy (identifying similarities & differences). The shared column forces students to name what overlaps, not just list traits.

[illegible]

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one

factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “_____ because _____, which shows _____.”

Venn (3) / Triple T-Chart — Compare THREE

WHEN TO USE • WHY IT WORKS

Comparing three people, groups, or ideas. Use the columns for each item and note shared traits in your notes.

Item A	Item B	Item C
Trait / criterion 1		
Trait / criterion 2		
Trait / criterion 3		
Trait / criterion 4

Extend — push higher-DOK: “Which side has the stronger case, and why?” or “What would change if one factor were different?”

Show it your way — students may write, say it aloud, draw/label, or build it (UDL response choice).

Sentence frame: “_____ because _____, which shows _____.”

Two categories to sort or weigh: benefits vs costs, pros vs cons, before vs after, cause vs effect. Fast, low-floor entry point for comparison.

[illegible]

Scaffold — offer a sentence starter or a small word bank, or let students complete part of the organizer with a partner first.

Sentence frame: “_____ because _____, which shows _____.”

Compare & Contrast Matrix — Items × Criteria

WHEN TO USE • WHY IT WORKS

Sentence frame: “_____ because _____, which shows _____.”

Cause & Effect — Causal Chains

WHEN TO USE • WHY IT WORKS

Task asks “what caused...?”, “what were the effects/consequences of...?” Makes causal reasoning visible (builds SSP.05).
