

Unit 10 — Teacher How-to-Use & MTSS Guide

Modern America (1965–2016) • Course Standard • US.83–US.95 • Grades 9–12

Release-Ready • Pilot Edition. This guide holds the answer key for teacher use only — keep it separate from student materials.

1. Firm Goals, Flexible Means

One firm learning goal per standard; flexible, universal means. Supports are available by design and never lower the goal. They work alongside — never in place of — required IEP or 504 accommodations.

The same six labels students see

Label	Meaning
CORE PATH	Essential instruction every student completes.
SUPPORT OPTION	Optional scaffold that keeps the goal, not lowers it.
LANGUAGE SUPPORT	Vocabulary, pronunciation, and Spanish cognates.
RESPONSE CHOICE	Write, say/record, or diagram.
PROGRESS CHECK	Quick DOK-2/3 check to guide reteach or extend.
EXTENSION	Deeper challenge once the goal is met.

2. Label-to-Action Table

When you see...	Do this
CORE PATH	Teach to all; this is the standard expectation.
SUPPORT OPTION / Guided Back	Offer to any student; never assign by track.
LANGUAGE SUPPORT	Pre-teach Word Bank terms; use Spanish column for access.
PROGRESS CHECK	Collect a quick response; route with the Decision Cycle.
EXTENSION	Offer the higher-DOK CER/Extension Bank to anyone ready.

3. MTSS — Tiers of Support Intensity

Tier	Who / when	In this unit
Tier 1 (Core)	All students	Full deck + workbook CORE PATH, Word Bank, Cornell Notes.
Tier 2 (Targeted)	Students missing a Progress Check	Guided Support Back, sentence frames, Rehearsal Lab.
Tier 3 (Intensive)	Persistent barrier	Pair Guided Back with IEP/504 supports; reteach a step.

4. The MTSS Decision Cycle

PROGRESS CHECK → identify barrier → select support → reteach → recheck → extend

Scaffold fading

Fade Guided → Light → independent as evidence grows; reintroduce support for a new barrier. Required IEP/504 accommodations do not fade unless the authorized team changes them.

5. District Review Evidence Snapshot

Criterion	Where it shows
Standards alignment (US.83–US.95)	Standards & SSP Crosswalk; per-standard blocks.
Public-domain sources, cited	Source Library; Activity 5 each standard.
UDL 3.0 visible	Accessibility matrix; callouts throughout.
MTSS	This guide §3–4; wrap-up decision band in the Teacher Deck.
Assessment integrity	Answer key here (separate); de-biased positions.

6. Direct Teaching + Cornell Notes + Slide Deck Workflow

Project the Student (Lean) Deck; students take Cornell Notes on the Universal Front. The Teacher (Full) Deck carries Quick Reviews, Guided Practice, Checks for Understanding, and Answer Reveals.

7. What to Print and When

Print	When
Cornell Universal Front (per standard)	Day 1 of each standard.
Guided / Light Support Backs	On request only; reverse of the front.
Practice Quiz + CER	After direct teaching, before the standard assessment.

Print	When
Source Library	Once per unit for reference.

8. Per-Standard Lesson Sequence & Pacing (one standard = one 45-minute period)

Each standard is taught in a single 45-minute period, but the workbook intentionally holds more activity than one period can fit — run them all and it is roughly 90–105 minutes. That is by design: you choose which activities fill your period, and the rest become bell-ringers, stations, homework, reteach, or extension. The estimates below are honest time-on-task for an average class; adjust for yours. Every workbook activity header shows the same ⌚ estimate so students can self-pace.

Honest activity time estimates (pick what fills your 45 minutes)

Activity	~Time	Note
Standard launch (hook • goal • activate • predict)	5 min	Frames the learning target and the day.
Activity 1 — Vocabulary Word Bank	10 min	Reference + self-check + quick-write.
Activity 2 — Vocabulary Studio (Frayer)	7 min	One priority term, four quadrants.
Activity 3 — Cornell Notes (with slide deck)	20 min	Direct-teaching capture — front + processing back.
Activity 4 — Close Read	15 min	Passage, annotation, text-dependent questions.
Geographer's Lens (G-tagged standards, as applicable)	10 min	Analyze the period map + mark-up.
Activity 5 — Primary Source / Data (HIPPO)	15 min	Source + five HIPPO prompts + response.
Activity 6 — Practice Quiz	8 min	A few items + one short DOK-3 write.
Activity 7 — CER + Exit Ticket	15 min	CER organizer + paragraph (~12) and Exit Ticket (~3).

Run every activity and a standard totals ≈ 105 minutes (≈ 95 without a map) — about two periods of work compressed into a one-period design. So it is a menu, not a checklist.

How to fill the period — your call

You decide which activities run in class. A common choice is Launch → Cornell Notes with the deck → one analysis activity (Close Read or Primary Source) → the Exit Ticket, but nothing forces that set — pick what your class needs that day.

The Exit Ticket is the daily formative check; try to close every period with it (see §16 for the keys and reteach routing).

Whatever you do not run in class becomes a bell-ringer, station, early-finisher task, homework, reteach, or extension. Rigor stays the same for every learner; UDL/MTSS supports layer on without lowering the bar.

9. Assessment Source & Item Metadata

Each standard's Progress Check / Transfer Check is a Teacher-Deck Check for Understanding (DOK 2–3). The additional Practice-Quiz DOK-1 items are History Hack-authored recall items. All items are pre-field-test (classroom-formative), not a secure TCAP form. Correct-answer positions are de-biased and identical across Student Progress Check, Teacher CFU/Reveal, and the workbook Transfer Check.

De-biased key distribution (Transfer Checks, US.83–US.95)

A • B • C • D • A

15. Constructed Response (CER) — 6-Point Rubric

The course's canonical constructed-response scale. Student materials use the simple Full / Developing / Beginning per part; teachers score with the 6-point guide below (aligns with the DBQ/CER rubric bank).

Score	Level	What it looks like
6	Exemplary	Defensible, insightful claim; TWO or more precise, accurate pieces of evidence; reasoning fully explains HOW the evidence proves the claim; cohesive and sophisticated.
5	Advanced	Clear claim; strong, accurate evidence; reasoning explains the link with only minor gaps.
4	Proficient	Adequate claim; some specific evidence; reasoning present but general.
3	Adequate	Basic claim; limited or partly accurate evidence; reasoning thin.
2	Developing	Vague claim; little evidence; evidence largely unexplained.
1	Beginning	No clear claim; little or no evidence; no reasoning.

Swap in your bank's exact CER rubric text if it differs; the 6-point scale (6 Exemplary → 1 Beginning) is the course convention.

16. Exit Ticket Answer Keys + What's Next (reteach)
