SPINE

Saddle-stitch. At 17 pages the folded spine is only ≈ 0.038 in (1 mm) — too thin to print spine text; bind saddle-stitch (no printed spine). To get a printable spine, perfect-bind at $\geq \sim 48$ pages, or combine thin teacher books into one volume. The spine panel above is provided for when this title is perfect-bound.

U.S. HISTORY HACK™

Formative + summative, parallel forms, keyed and ready to reteach.

Unit 1 — The Rise of Industrialization (1877–1900) · Teacher Edition

WHAT'S IN THE ASSESSMENT BOOK

- ◆ **A checkpoint per standard.** Short, DOK-balanced formative checks for progress monitoring across US.01–US.07.
- ◆ **Two parallel summative forms.** Form A and Form B for pre/post or retakes, built for minimal overlap.
- ◆ **Keyed with item analysis.** Correct answer, DOK, reporting category, and distractor-based routing — teacher-side only.
- ◆ **Reteach built in.** Each item maps to a “What’s Next” move tied to the workbook’s Cornell notes and Guided Support.
- ◆ **From a real item bank.** Every item is pulled from the History Hack question bank; positions de-biased and synced across surfaces.
- ◆ **Honest calibration status.** Items are classroom-formative and pre-field-test — the first cycle of use is what calibrates them.
