

TEAM-Aligned Lesson Plan

U.S. History (Grades 9–12) · Franklin High School · Williamson County Schools

Standard: US.06 — Industrial Centers and Urbanization

Schedule: Regular block — 47 minutes · Date: _____ · Teacher: _____

TN Standard (full text): *Locate the following major industrial centers, and describe how industrialization influenced the movement of people from rural to urban areas: Boston, Chicago, New York City, Pittsburgh, San Francisco.*

1 · Standards & Objectives

Learning objective (I-CAN): “I can locate major industrial centers and describe how industrialization influenced the movement of people from rural to urban areas.”

Sub-objectives (sequenced from the standard's criteria):

- Major Industrial Centers.
- Rural-to-Urban Migration.
- Geographic Factors in Industrial Location.

Connection to prior learning: Builds on US.05 (Inventions & Innovations of Business Leaders & Entrepreneurs) — students carry yesterday's understanding into today's standard.

Tennessee connection: Chattanooga emerged as a major industrial center due to its strategic railroad connections, earning the nickname 'Dynamo of Dixie' for its iron foundries and manufacturing. Memphis grew as a cotton trading hub, and Nashville developed a publishing and printing industry that would make it the 'Athens of the South.'

2 · Assessment & Evidence of Mastery

Measured in multiple ways (TEAM: 3+ measures with clear criteria):

- **Selected-response + short constructed:** US.06 Formative Assessment (with teacher answer key).
- **Extended writing:** CER organizer — claim, evidence, reasoning on the Industrial Centers and Urbanization.
- **Primary-source analysis:** HIPPO organizer on “How the Other Half Lives” (Jacob Riis, 1890).
- **Exit ticket (EN + ES):** 2-question check for understanding, bilingual.

Success criteria: Student cites at least two specific pieces of evidence and can locate major industrial centers and describe how industrialization influenced the movement of people from rural to urban areas.

3 · Lesson Structure & Pacing (47-minute Regular block)

Min	Segment & what happens	Material
5	Warm-Up / Bell-Ringer — recall Inventions & Innovations of Business Leaders & Entrepreneurs (US.05); frame today's question	Word Bank / Do-Now
4	Hook — Chattanooga emerged as a major industrial center due to its strategic railroad connections, earning the nickname 'Dynamo of Dixie' for its iron foundries and manufacturing; Who gained, who was left out — and why does it still matter?	Teacher Deck
12	Direct Instruction — teacher models close reading of the core content; students capture Cornell Notes	Teacher Deck + Cornell Notes
10	Guided Practice — Cornell Notes + a comparison/analysis organizer	Cornell Notes · organizer
11	Primary Source / HIPPO — analyze the source; begin CER	Primary-Source Packet · HIPPO · CER organizer
5	Exit Ticket & Closure — 2-question check; preview US.07	Exit Ticket (EN/ES)

Total: 47 minutes (segments sum-verified to the block length; auto-adjusts to 43-min Activities or 41-min Late-Start).

4 · Activities & Materials (teacher-selected)

- Cornell Notes (Universal Front) — direct-teaching capture (cue / notes / summary)

- Cornell Support Backs — optional MTSS scaffold; lives in the Teacher Organizer Toolkit, prints duplex behind the Cornell front, copy only as needed
- Comparison / analysis organizer — structure student thinking on the core content
- Primary-Source Packet + HIPPO organizer — sourcing & analysis of “How the Other Half Lives”
- CER organizer — evidence-based extended writing
- Formative Assessment + Exit Ticket (EN/ES) — checks for understanding

Word Bank (key vocabulary): Urbanization · Granger Movement · Populism · Interstate Commerce Act · Tenement · Industrialization

Complex text, student choice (organizer format), primary sources, and student-to-student discussion are built in — satisfying the TEAM Activities & Materials indicators.

5 · Questioning Plan (DOK ladder, text-based, cite evidence)

Level	Example question (US.06)
DOK 1	Define the key term “Urbanization” and identify when it occurred.
DOK 2	In your own words, summarize the Industrial Centers and Urbanization and explain why it mattered.
DOK 3	Analyze the relationship between Chicago’s geographic location and its industrial development.
DOK 4	Evaluate the long-term impact of the Industrial Centers and Urbanization — support your claim with evidence from the source(s).

Anchored to the US.06 content and item bank (DOK 1–4). Majority of questions are text-based; students cite evidence. Teacher may swap in additional bank items.

6 · Thinking & Problem-Solving

- **Analytical thinking:** compare and contrast perspectives within the Industrial Centers and Urbanization.
- **Research-based thinking:** evaluate “How the Other Half Lives” and related sources.
- **Problem-solving (drawing conclusions / justifying):** students build and defend a claim in the CER.

7 · Grouping & Feedback [teacher selects]

- **Grouping:** pairs for the CER organizer; whole-class for the primary-source model; individual exit ticket.
- **Feedback checkpoints:** circulate during Guided Practice and Primary-Source segments; use exit-ticket results to adjust tomorrow’s opening.

8 · Differentiation (Knowledge of Students)

- **ELL / WIDA:** UDL/WIDA overlay + sentence frames; Spanish exit ticket for entering/emerging levels.
- **IEP / 504:** chunked Cornell Notes (with the support back), extended time, read-aloud (browser TTS), reduced-item formative option.

9 · Environment Reminders (teacher-implemented)

A lesson plan supports — but cannot manufacture — the TEAM Environment domain. Reminders:

- Set high expectations; frame content with dignity and historical accuracy.
- Establish discussion norms before the primary-source analysis.
- Display current student work; keep materials accessible for the pair activity.

10 · Materials & Where to Print

Included in today’s print ZIP (US.06 — print-ready PDF + editable DOCX):

Student (print & copy)	Teacher (your copy)
Vocabulary — Word Bank	Teacher Lesson Plan (this doc)
Vocabulary Studio	Cornell Support Backs — toolkit (copy as needed, MTSS)
Cornell Notes (Universal Front)	Formative Assessment — Answer Key

Student (print & copy)	Teacher (your copy)
Close Read	Primary-Source Teacher Guide
Primary Source / Data Analysis + HIPPO	UDL / WIDA overlay
Core Application — Practice Quiz	File Map & Print Guide
Constructed Response (CER)	
Exit Ticket — English & Spanish	

Note: students print the Cornell Notes Universal Front. The Cornell Support Backs (Guided/Light scaffolds) live in the Teacher Organizer Toolkit and print duplex on the reverse — copy them only for students who need them (MTSS), and fade as evidence grows.

Slides (download once for the unit):

Unit 1 Teacher Deck — US.06 slides. Download from Teacher Tools → Lecture Decks → Unit 1. (Decks are reused all unit, so they are not bundled in the daily ZIP.)

11 · Reflection & Next Steps

Teacher reflection (complete after teaching):

- Did students meet the I-CAN? Cite the evidence — exit-ticket % correct, CER quality.
- What worked, and what would I change next time?
- Which sub-objective still needs another touch tomorrow?

Extension / enrichment (for students who mastered it):

- Deeper source work: analyze a second primary source with the HIPPO organizer.
- Connect forward: how does the Industrial Centers and Urbanization set up US.07 (Immigration: Old vs. New Immigrants)?

If it's not working (reteach / intervention path):

- Below ~70% mastery on the exit ticket / formative → reteach with entry-tier materials (Cornell Notes + the Cornell Support Back + a shorter source) in a small group — MTSS Tier 2.
- **One click — “Remediate US.06”:** assembles a reteach pack (entry-tier worksheet, targeted DOK 1–2 questions, ELL/IEP supports) as a fresh print ZIP.
- **Mid-lesson trouble:** if pacing slips, protect the 5-min Exit Ticket — it's tomorrow's data — and move the CER to homework or the next day.

Appendix · How this plan maps to the TEAM rubric

TEAM indicator	Where addressed
Standards & Objectives	§1 — I-CAN + sequenced sub-objectives + prior learning
Motivating Students	§3 Hook — Tennessee relevance
Presenting Content	§3 DI — deck visuals + Cornell Notes + modeling
Lesson Structure & Pacing	§3 — 47-min segmented, warm-up → closure
Activities & Materials	§4 — varied, choice, primary sources, complex text
Questioning	§5 — DOK 1–4 ladder, text-based, cite evidence
Feedback	§7 — checkpoints during guided practice
Grouping	§7 — pairs + whole-class + individual
Teacher Content Knowledge	§1/§4 — accurate, standards-aligned content
Knowledge of Students	§8 — UDL/WIDA + IEP/504
Thinking / Problem-Solving	§6 — analytical, research-based, justify a claim
PLANNING: Instructional Plans	Whole plan — sequenced, accommodations, closure
PLANNING: Student Work	§2 — CER + HIPPO extended writing
PLANNING: Assessment	§2 — multiple measures + clear criteria
Environment (3 indicators)	§9 — reminders (teacher-implemented; not auto-generated)

The three PLANNING indicators (highlighted) are what a written plan is directly scored on — this template earns them structurally. The Instruction indicators are documented so the teacher walks in ready; the Environment domain is prompted, not generated.
