

# Which Organizer, When?

Unit 7 · The Cold War (1945–1991) · US.59–US.70

Match the task to the tool — then  
teach the *why*.

Students don't need more worksheets — they need the **right thinking tool** for the task in front of them. Find the *verb* in the assignment, then reach for the organizer built for that kind of thinking.

**45-minute class?** Plan **one** deep organizer (~20 min) or **two** quick ones (~10 min each), plus warm-up & discussion. Every page prints its own time estimate.

Compare 2 Things

DOK 2 • Comparison

**WHEN • WHY** Use when a task asks students to **compare two** things — the overlap makes shared traits visible and forces precise differences. *Identifying similarities & differences is the highest-yield strategy for learning gains (Marzano).*

In each circle, write what is unique to that topic. In the middle, write what they share.

Topic A: \_\_\_\_\_

Topic B: \_\_\_\_\_

## MAKE IT WORK FOR EVERY STUDENT UDL • MTSS

### SCAFFOLD

Give a word bank and a sentence starter: "Both \_\_\_\_ and \_\_\_\_ are \_\_\_\_." Let pairs fill the BOTH region first.

### EXTEND

Rank the differences: which one matters most, and why? Defend it in one sentence of evidence.

### SHOW IT YOUR WAY

Students may **write**, **say** (record), **draw** icons, or **build** the circles with sticky notes.

DOK 2-3 • Comparison

**WHEN • WHY** Use when a task asks students to **compare three** things at once — the overlaps expose what is shared by two, what is shared by all three, and what stays unique. *Identifying similarities & differences is the highest-yield strategy for learning gains (Marzano).*

Name each topic in the key, then fill the circles: unique traits in the single lobes, shared traits where they overlap.

**WHEN · WHY** Use when a task asks **what led to** an event and **what followed** from it — separating causes from effects builds reasoning about change over time. *Analyzing cause & effect is a core TN Social Studies Practice (SSP.05).*

DOK 2–3 • Causation

**WHEN • WHY** Reading it as **fear** → **Red Scare** → **effects** shows how **real** security concerns hardened into accusations, blacklists, and abuses of civil liberties. *Analyzing cause & effect is TN Social Studies Practice SSP.05.*

Real Cold War fears sit on the left; four effects flow out on the right. Arrows show the chain: **fear** → **the Red Scare** → **effects**. Watch how genuine fear became overreach.

## CAUSES • WHAT FUELED THE FEAR

Soviet nuclear bomb (1949) & communist victory in China (1949)

The Korean War (1950–53) — communism on the march

Real spy cases — the Rosenbergs & Alger Hiss

## THE EVENT

### THE SECOND RED SCARE, 1947–54

*Fear of communist infiltration at home — describe the mood of the era*

## EFFECTS • FEAR BECOMES OVERREACH

McCarthyism — Sen. McCarthy's accusations spread paranoia

Blacklisting — the Hollywood Ten; HUAC destroys careers

Army–McCarthy hearings (1954): “Have you no sense of decency?”

The Rosenbergs executed (1953); a climate of fear

★ **Tennessee Connection.** Tennessee's **Senator Estes Kefauver** gained national fame through **televised hearings on organized crime (1950–51)** — showing, in the same era as McCarthy, how **television** could turn a Senate hearing into a national spectacle.

Main Idea & Details

DOK 2 · Summarize

**WHEN · WHY** A main-idea organizer separates the **big idea** from the details that support it, so students capture how nuclear fear shaped a whole era instead of listing facts. *Summarizing — keep the main idea, cut the rest — is a high-yield comprehension strategy (Marzano).*

Fill each detail box first, using the faint hints as anchors. Then infer the main idea all four support and write it up top — the arrows show every detail holding it up. Finish with one summary sentence.

MAIN IDEA

Americans lived under the constant shadow of nuclear war — shaping schools, homes, politics, and daily life.

↑ THESE FOUR POINTS SUPPORT THE MAIN IDEA ↑

Living with Fear

"Duck and cover" drills in schools; backyard fallout shelters; civil defense programs.

MAD

Mutual Assured Destruction — neither side would attack, knowing both would be destroyed.

The Stockpiling Debate

Hawks wanted nuclear superiority; doves feared accidents & endless costs — did more bombs mean more safety?

Testing & Fallout

Above-ground tests spread radioactive fallout; the 1954 Bravo test harmed fishermen → pressure for test bans.

In one sentence, how did nuclear fear shape everyday American life?

★ **Tennessee Connection — Oak Ridge, Tennessee** — home of the uranium enrichment that built the first atomic bomb — stayed central to the arms race. Its **Y-12 complex** kept producing nuclear materials, putting Tennessee on the front line of Cold War nuclear policy.
