Enlightenment Roots of American Government

Learning target: I can examine the influences of leading European thinkers (e.g., John Locke, Charles-Louis Montesquieu, Thomas Hobbes) and other roots of American government (e.g., Greek democracy, Roman Republic, Magna Carta).

John Locke (1632–1704), whose Second Treatise of Government argued that legitimate government rests on the consent of the governed — a direct root of American political thought.

“Men being, as has been said, by nature all free, equal, and independent, no one can be put out of this estate and subjected to the political power of another without his own consent.” — John Locke, Second Treatise of Government (1689)

HOOK

You already have rights no ruler gave you and none can take away — that's the idea that started a revolution. Where did it come from?

KEY VOCABULARY

Natural Rights /NATCH-rul RYTS/
derechos naturales

God-given rights to life, liberty, and property that government does not grant and cannot rightfully take away — central to John Locke's political thought.

CHECK FOR UNDERSTANDING · DOK 2

According to John Locke, where does a government's rightful authority come from?

- A The divine right of kings
- B The strongest military
- C ✓ The consent of the people being governed
- D Inherited wealth and land

Answer: C. DOK 2: Locke's social-contract theory holds that legitimate government rests on the consent of the governed to protect natural rights — a direct root of the Declaration's 'consent of the governed.'

The Declaration of Independence

Learning target: I can examine the Declaration of Independence and American grievances against British rule.

Declaration of Independence (engrossed copy)

drop image: GC.02_declaration-of-independence.jpg

The engrossed Declaration of Independence, 1776 — the document that turned the colonists' grievances into a claim of natural rights and self-government.

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.” — Continental Congress (drafted by Thomas Jefferson), Declaration of Independence (July 4, 1776)

Declaration of Independence (engrossed copy) · Second Continental Congress; engrossed by Timothy Matlack (1776) · U.S. National Archives

HOOK

'All men are created equal.' A bold claim in 1776 — and the colonists used it to fire a king. How does the Declaration build its case?

KEY VOCABULARY

Unalienable Rights /un-AY-lee-uh-nuh-bul RYTS/

derechos inalienables

Rights so fundamental they cannot be taken away or given up — in the Declaration, 'Life, Liberty and the pursuit of Happiness.'

CHECK FOR UNDERSTANDING · DOK 3

The Declaration lists the colonists' natural rights and then a long list of grievances against the king. Why did the writers put these two parts together?

- A ✓ To show that when a government repeatedly violates the people's rights, the people may justly alter or abolish it
- B To make the document longer and more impressive
- C To ask King George III to apologize
- D To describe how to run the new state governments

Answer: A. DOK 3: The structure is an argument — universal rights (major premise) + the king's specific violations (evidence) → the conclusion that the colonies may rightfully separate. Grievances turn principle into justification.

The Articles of Confederation

Learning target: I can identify the strengths and weaknesses of the Articles of Confederation.

Franklin's 'Join, or Die' (1754): a severed snake labeled with the colonies. Under the loose Articles of Confederation, the states struggled to act as one — the cartoon's warning about disunity still fit.

“Each state retains its sovereignty, freedom, and independence, and every power, jurisdiction, and right, which is not by this Confederation expressly delegated to the United States, in Congress assembled.” — Second Continental Congress, Articles of Confederation, Article II (ratified 1781)

Join, or Die · Benjamin Franklin (1754) · Library of Congress, Prints & Photographs Division

HOOK

Imagine a national government that can declare war but can't collect a dime to pay for it. That was America under the Articles. What went wrong?

KEY VOCABULARY

Confederation /kon-fed-uh-RAY-shun/

confederación

A loose union of independent states that keep most of their power, giving only limited authority to a weak central government.

CHECK FOR UNDERSTANDING · DOK 2

Under the Articles of Confederation, which power did the national government LACK that caused serious problems?

- A The power to declare war
- B The power to make treaties
- C The power to run a post office
- D ✓ The power to tax the states and citizens directly**

Answer: D. DOK 2: The Articles denied Congress the power to tax; it could only request money from the states. Without reliable revenue, the national government could not pay debts or respond to crises like Shays's Rebellion.

The Constitutional Convention & Ratification

Learning target: I can discuss the Constitutional Convention of 1787, including the Great Compromise and the ensuing debate over ratification between the Federalists and Anti-Federalists.

HOOK

Two plans, thirteen stubborn states, one hot Philadelphia summer. How

KEY VOCABULARY

Great Compromise /GRAYT KOM-pruh-myz/

Gran Compromiso

The 1787 agreement creating a two-house Congress: a House based on state population and a Senate with equal representation (two per state) — settling the fight between large and small states.

CHECK FOR UNDERSTANDING · DOK 3

The Great Compromise settled which major disagreement at the Constitutional Convention?

- A Whether to have a president or a king
- B ✓** How states should be represented in Congress — by population or equally
- C Whether to keep the Articles of Confederation
- D Whether to allow political parties

Answer: B. DOK 3: Large states favored the Virginia Plan (representation by population); small states favored the New Jersey Plan (equal representation). The Great Compromise combined both — a population-based House and an equal-

The Preamble: Purposes of Government

Learning target: I can describe the purposes and functions of government as outlined in the Preamble of the Constitution.

The first page of the Constitution opens with the Preamble — 'We the People' — stating the purposes government exists to serve.

"We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America." —

Constitutional Convention, Preamble to the U.S. Constitution (1787)

U.S. Constitution, Page 1 ("We the People") · Constitutional Convention; engrossed by Jacob Shallus (1787) · U.S. National Archives

HOOK

Six goals, one sentence, and it starts with three world-changing words: 'We the People.' What did the Framers promise?

KEY VOCABULARY

Preamble /PREE-am-bul/

preámbulo

The introduction to the Constitution that states the document's purposes, beginning 'We the People.'

CHECK FOR UNDERSTANDING · DOK 2

The Preamble begins with the words 'We the People.' Which principle of government does this phrase express?

- A Judicial review
- B Separation of powers
- C ✓ Popular sovereignty — government power comes from the people
- D Federalism

Answer: C. DOK 2: 'We the People' declares that the Constitution's authority flows from the people themselves — the principle of popular sovereignty — not from a king or a single state.

Principles of Limited Government

Learning target: I can describe limited government within the Constitution, including: checks and balances; civilian control of the military; federalism; judicial review; popular sovereignty; rule of law; separation of powers.

The Federalist, Volume 1
(title page)

title-page.jpg

The Federalist (1788). In No. 51, Madison argued that a government of separated, checking powers is necessary 'because men are not angels' — the logic of limited government.

“If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary... Ambition must be made to counteract ambition.” — James Madison (Publius), Federalist No. 51 (1788)

The Federalist, Volume 1 (title page) · Alexander Hamilton, James Madison, John Jay ('Publius') (1788) · Library of Congress, Rare Book & Special Collections

HOOK

'If men were angels, no government would be necessary.' Since we're not angels, how did Madison design a government to guard against itself?

KEY VOCABULARY

Separation of Powers /sep-uh-RAY-shun/

separación de poderes

Dividing government into three branches — legislative, executive, and judicial — so no one branch holds all power.

CHECK FOR UNDERSTANDING · DOK 3

In Federalist No. 51, Madison writes that 'ambition must be made to counteract ambition.' Which constitutional design does this describe?

- A ✓ Checks and balances that let each branch limit the others
- B Popular sovereignty
- C Federalism between nation and states
- D The amendment process

Answer: A. DOK 3: Madison's point is structural — because people seek power, the Constitution pits the branches against each other so each checks the others' ambition. That is the logic of checks and balances.

Structure of the Constitution & How to Amend It

Learning target: I can describe the structure of the Constitution and the process to amend it.

The Federal Edifice (“The Federal Pillars”)

drop image: GC.07_federal-pillars.jpg

The 'Federal Pillars' cartoon (1788) shows states rising as columns of the new structure — a fitting image for the Constitution's architecture and its deliberately hard amendment process.

“The Congress, whenever two thirds of both Houses shall deem it necessary, shall propose Amendments to this Constitution, or... shall call a Convention for proposing Amendments, which... shall be valid... when ratified by the Legislatures of three fourths of the several States.” —
Constitutional Convention, U.S. Constitution, Article V (1787)

The Federal Edifice (“The Federal Pillars”) · Massachusetts Centinel (1788) · Library of Congress, Prints & Photographs Division

HOOK

Only 27 changes in more than 230 years. Is the Constitution nearly perfect — or nearly impossible to change? Article V holds the answer.

KEY VOCABULARY

Amendment /uh-MEND-munt/

enmienda

A formal change or addition to the Constitution; there have been 27, beginning with the Bill of Rights.

CHECK FOR UNDERSTANDING · DOK 2

Why did the Framers make the amendment process in Article V deliberately difficult?

- A To make sure the Constitution could never change
- B To let a single state change it alone
- C To give the president control over amendments
- D ✓** So the Constitution could adapt over time, but only with broad agreement across the country

Answer: D. DOK 2: Requiring supermajorities to propose (2/3 of Congress) and ratify (3/4 of states) means change is possible but requires broad national consensus — balancing stability with flexibility.

The Bill of Rights

Learning target: I can analyze how the Bill of Rights limits the powers of the government and ensures individual rights.

The engrossed Bill of Rights, 1789. The first eight Amendments each draw a boundary government may not cross; the 9th and 10th reserve rights and powers to the people and the states.

“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.” — U.S. Congress (Bill of Rights), First Amendment (ratified 1791)

The Bill of Rights (engrossed copy) • 1st U.S. Congress (1789) • U.S. National Archives

HOOK

Ten amendments, one purpose: to tell the government what it may NOT do to you. Why did Americans insist on adding them?

KEY VOCABULARY

Bill of Rights /BIL of RYTS/

Carta de Derechos

The first ten amendments to the Constitution (1791), which protect individual freedoms and limit the power of government

CHECK FOR UNDERSTANDING • DOK 3

The First Amendment begins 'Congress shall make no law...' Why does the Bill of Rights phrase protections as limits on the government rather than as gifts to the people?

- A To show the government created these rights and can remove them
- B ✓** Because the Framers saw rights as belonging to people already — the Constitution's job is to stop government from violating them
- C To give Congress more power over speech and religion
- D Because only Congress has rights

Answer: B. DOK 3: The Bill of Rights reflects natural-rights thinking: rights pre-exist government. Framing them as

Republic and Democracy

PRIMARY SOURCE · EMBLEM

Great Seal of the United States (obverse)

drop image: GC.09_great-seal.jpg

The Great Seal's motto, E Pluribus Unum — 'out of many, one' — captures the constitutional republic: many states and citizens under one representative government limited by law.

"A republic, by which I mean a government in which the scheme of representation takes place... promises the cure for which we are seeking. Let us examine the points in which it varies from pure democracy." — James Madison (Publius), Federalist No. 10 (1787)

Great Seal of the United States (obverse) · Charles Thomson & William Barton (design) (1782) · U.S. National Archives / public domain (U.S. government emblem)

HOOK

Is the United States a democracy or a republic? The answer is 'both, on purpose' — and it changes how your voice reaches government.

KEY VOCABULARY

Republic /ree-PUB-lik/

república

A government in which citizens elect representatives to make laws and decisions on their behalf.

CHECK FOR UNDERSTANDING · DOK 2

What is the main difference between a direct democracy and a republic (representative democracy)?

- A ✓** In a direct democracy citizens vote on laws themselves; in a republic they elect representatives to make laws
- B** A republic has no elections
- C** A republic is ruled by a king
- D** There is no difference

Answer: A. DOK 2: In a direct democracy the people vote on laws directly; in a republic (representative democracy) the people elect representatives who make laws on their behalf — the model the Framers chose.

Whose Voice Counted? Perspectives on the Founding

Federalists

Argued for a stronger national union and ratification; Madison and Hamilton defended checks and balances and the large republic in the Federalist Papers (GC.04, GC.06).

Anti-Federalists

Feared a distant, too-powerful central government and refused to ratify without a Bill of Rights to protect individual liberty (GC.04, GC.08).

Enslaved & Free Black Americans

The Three-Fifths Compromise counted enslaved people as three-fifths of a person for representation (GC.04), even as the Declaration proclaimed that 'all men are created equal' (GC.02).

Women & the Unenfranchised

Women, most non-property holders, and Native peoples could not vote at ratification; the Article V amendment process (GC.07) later became the path to expand the franchise.

Our Signature Move

Tennessee entered the Union in 1796 as the 16th state. Its own state constitution echoes the federal design studied in this unit — a separation of powers among three branches and a Declaration of Rights modeled on the Bill of Rights (GC.06, GC.08).

Predict • Play • Spiral

Predict First — open the unit

Predict first: Do you have rights the government GIVES you, or rights it can never take away? Write your gut answer now — you'll test it against John Locke and the Bill of Rights by the end of the unit.

Warm-Up Play — Federalism Face-Off

3-minute warm-up (GC.06). The teacher calls a power — 'declare war,' 'run a school,' 'coin money,' 'set up courts,' 'issue licenses.' Students race to shout or hold a card: FEDERAL, STATE, or BOTH, then defend one call. Low-stakes, on-standard, and it front-loads the federalism Venn.

Spiral — retrieve & connect

GC.08 → Unit 6 (Civil Liberties, GC.23–27)

The Bill of Rights you meet here becomes the case law you argue there — 1st, 2nd, 4th–8th, and 14th Amendments.

GC.06 → Units 3–5 (the three branches)

Separation of powers and checks & balances are the blueprint for the Legislative, Executive, and Judicial units.

GC.05 → Unit 2 (Citizen Participation)

Popular sovereignty — government by consent — is WHY citizens participate; carry it into voting, parties, and petition.

Constitutional Conversations

- Cite before you critique — point to a source.
- Disagree with the idea, not the person.
- Ask 'Who benefited? Who bore the cost?' before you judge.
- One voice at a time; make room for the quiet voice.

Revisit the Essential Question

“How and why did the Founders build a limited constitutional republic?”

Students now have the sources, vocabulary, and reasoning to answer it — in a CER paragraph or the unit DBQ.
